Details:

1200 Russian Mercenaries Fighting for Haftar in Libya

According to *alJazeera*:

Russian private military contractor Wagner Group has deployed about 1,200 mercenaries to Libya to strengthen the forces of renegade military commander Khalifa Haftar, according to a leaked United Nations report.

The 57-page report by independent sanctions monitors, submitted to the UN Security Council Libya sanctions committee, said Wagner deployed the mercenaries in specialised military tasks, including sniper teams.

"We've known for a long time that Russian mercenaries operate in Libya but we didn't perhaps know the scale of the operations," said Al Jazeera's James Bays, reporting from New York.

The conflicts within the Muslim world are largely a promotion of external powers. Behind Russia is in fact America. The Libyan conflict is in reality a conflict between Britain, which supports the Government of National Accord in Tripoli, and America, which wants to replace this government using the forces of General Haftar. After the failures of Iraq and Afghanistan, America has avoided using its own military forces on the ground in the Muslim world, and hence has taken to using the forces of other countries for its own purposes.

The affairs of Muslims will never be properly resolved until Muslims retake control of their own affairs, reject the interference of the imperialist foreign disbeliever, and return their lands to the rule of Islam as it was before.

Kashmiris continue to Protest Killing under Indian Occupation

According to *Dawn*:

Anti-India protests and clashes continued for a third day in occupied Kashmir on Friday, following the killing of a top resistance leader by Indian forces.

Kashmiri leader Riyaz Naikoo and his aide were killed in a gunfight with Indian troops on Wednesday in the southern Awantipora area, leading to massive clashes at several places.

The clashes continued on Friday as anti-India protesters threw stones at government forces, who fired shotgun pellets and tear gas to quell the spiralling protests.

The fierce resistance of Muslims in occupied territories, such as Kashmir and Palestine, boldly demonstrates their rejection of the rule of foreign disbelievers. It was the extensive colonialization of Muslim lands by the imperialist West that led to the loss of these lands. But even after the West withdrew their armies from Muslim lands, these lands remained occupied as our countries continued to be ruled by men and systems that maintained loyalty to the West. It is time for the Muslim Ummah to fully take back its sovereignty and re-establish the Islamic Khilafah (Caliphate) State on the method of the Prophet (saw).

New Report Highlights West's Environmental Destruction

According to *Reuters*:

Extreme heat and humidity are increasing across the globe, threatening millions of lives and economies in places where it could become fatal to work outdoors, scientists said on Friday.

Parts of Australia, India, Bangladesh, the Persian Gulf, China, Mexico and the United States have experienced hundreds of previously rare incidents of extreme heat and humidity since 1979, said the study in the journal Science Advances.

These punishing conditions have lasted only one to two hours but climate change is likely to prolong them to about six hours at a time by 2060 and expand the affected areas, lead author Colin Raymond told the Thomson Reuters Foundation.

"That's kind of a conservative estimate but that's still earlier than anyone else had projected," said Raymond, who did the research as a PhD student at Columbia University and now works for NASA.

The disbelieving West's rapacious destructiveness extends from the exploitation of entire civilisations to damaging the planet that we all live on. The reckless promotion of ever-increasing economic growth, the subservience of economic affairs to material interest alone and the expropriation of the resources and wealth of the world has resulted in untold irreversible harm to man's natural environment.

Humanity and its environment will not be able to heal until leadership of world affairs returns to those who assume its responsibility not for personal material benefit but as a divine duty and obligation. With Allah's permission, mankind shall soon witness the re-established Islamic Khilafah (Caliphate) State on the method of the Prophet (saw) practising the best care not only for man but for animals, trees, plants and the entire earth's environment.
