

Rulers of Iran Change their Slogans of Revolution from 'Death to America, Death to Israel' to 'Death to Iran'!

(Translated)

News:

Iranian reactions over the interception of Iranian passenger plane by two American fighter planes on Syrian airspace continued, and Tehran lodged a formal protest against this incident, while Washington said that the plane's interception was to confirm its identity.

Comment:

Iran has been recently attacked continuously by the United States and its foster child Jewish entity, beginning with the assassination of Quds Force Commander Soleimani by America's planning and execution, followed by Jewish entity's strike against Iran's nuclear reactor in Natanz two weeks before which Iranian government kept secretly and the repeated strikes of Jewish entity against the Iranian forces and their party in Syria. And the Iran's reaction did not go beyond condemnation and appealing to the international institutions that are controlled by America and its western allies and so they were like seeking protection in the frying pan from the fire.

America and its foster child (Jewish entity) are bullying Iran, which is a nation that has not stopped its wars since the outbreak of its "Islamic Revolution" forty years ago, and whose people have sufficient experience and fighting competence to deter any regional forces at least as happened in the war with Iraq in the eighties of the last century. This bullying would not have occurred, had it not been the feebleness of Iran rulers and their humiliation towards Kufr and its people, in contrast to the slogans which they shout and mentioning of these slogans has embarrassed themselves. And if the rulers of Iran were Muslims, as they claim, and knew that the people of Iran believe in holy jihad, and are eager to fight America and Jewish entity, they would have been able to strike back with more measures. However, the rulers of Iran know the reality of its people and they exploited it (jihad) by misleading the people to serve the forces of evil in the Gulf and Syria, and before that in Iraq and Afghanistan.

If the rulers in Iran or Pakistan, for example, were amongst the same kind of its own people, they could have easily dominated the region within a day or few days. These American military bases and warships that are scattered in Bahrain and the Islamic Gulf are within their range and in the field of their naval, air, and missile forces. Invading an island like Bahrain and controlling one of the largest American military bases in the region could be a fatal blow to America in that region. This invasion is feasible, particularly if it is followed by a similar invasion in Qatar, UAE and the closure of straits and sea passages in the region. Whoever controls the gulf region will control the Middle East.

We are certain that the rulers of Muslims including the rulers of Iran are agents of the West and they only represent the interests of their masters. One should not think that they are just 'disobedients', 'wrongdoers' and 'disbelievers'. Instead they are westerners in hearts and minds. Therefore, we realize that the one who is able to take serious and real steps to dominate the region is the upcoming Khilafah (Caliphate) state soon with the permission of Allah. At that time, it will become a super power within few days by the blessings of Allah. Hence, it has become the greatest and the most important obligation for the people of power and authority in the Islamic lands including the nuclear Pakistan to give Nusra to Hizb ut Tahrir to lead this Ummah for independence and glory satisfied by the inhabitants of the earth and the heaven.
