

If not Now, When will You Mobilize?

News:

After the bombing of the hospital in Gaza by the Jewish entity, President Erdogan shared on Twitter: 'Shooting at a hospital where there are women, children, innocent civilians is the latest example of Israeli attacks that lack the most basic human values. I invite all humanity to take action to stop this atrocity in Gaza, which is unprecedented in history.' he said. (Agencies 18.10.2023)

Comment:

Thousands of our Palestinian Muslim brothers have been slaughtered for days as a result of the barbaric bombings of the Jewish entity without regard to the target, but the rulers of the Muslim countries, which have millions of soldiers and equipment in their armies, are still calling the International Community to condemn these attacks and to find safe passages for humanitarian aid.

Yes, the brutality of the Jewish entity in Gaza, Al-Aqsa and Palestine has never stopped. With the recent hospital bombing, the Jewish entity has almost brought this savagery and barbarity to its peak. Well, O rulers! Are you getting rid of the responsibility by publishing only condemnation messages in the face of this atrocity? Are you fulfilling your duty by collectively publishing messages of condemnation with Meetings of Islamic Cooperation that do not work? Are you fulfilling your responsibility by calling for sobriety? Are you doing a favor to Palestine by insisting on the two-state solution of the United States? Tell me, are these statements, these messages, these calls serving Palestine or the Jewish entity?

With the Al-Aqsa Storm raid, Muslims are confusing Jews with small and rather scarce facilities. America, Britain and other infidels, who are the friends of this entity, provide all kinds of war vehicles to the service of the Jewish entity from thousands of kilometers away with ships and provide all kinds of political support for it to commit massacres. The weak, cowardly, treacherous rulers of the Islamic countries cannot show the courage to claim Al-Quds for Gaza, which is occupied right next to them and subjected to massacre every day.

O rulers who just talk but take no actions! The Jewish entity gets this barbaric 'courage' only from your cowardice. The genocide of Gaza, in which 2.5 million Muslims are trapped with their hospitals, schools, parks, children, women, the sick, and the elderly. The Jewish entity only takes its courage from your confining huge armies back in your barracks. Again, from maintaining any kind of relationship with this being under the name of your real political idol. Since you put commercial relations at the top of the line of values, these massacres continue. So even if you are not the one who committed this atrocity, you are responsible anyway in the first degree. The leader who cannot protect our sanctities is just a scarecrow, while the army that cannot protect Jerusalem and Palestine is just a herd.

Mr. Erdogan! Remember when you send the army wherever NATO says, you who did not stop sending the SIKHS and UAVs you boasted about to the Jewish Zelenskyy to the friend of the Jewish community, Ilham Aliyev, will you mobilize this army and weapons for the Muslims in Palestine, if not today, when? It is now or never. Look, the Muslim Ummah has shouted out with the slogans "Armies to Aqsa!". Now it is your turn to fulfill your responsibility. Then what are you waiting for?

You have two options in front of you. Either you listen to the calls of the weak, children, women, the elderly to help us and you expel the Jewish entity, regardless of the cost, or you continue the messages of condemnation like a poor. You and your predecessors have been doing the second option for decades, and nothing has been changed so far. But we all know that the only solution to bring an end to all these massacre and persecution is Khilafah Rashidah (rightly guided Caliphate) upon the method of the Prophethood. We can observe that this is much more understood in the society than before. I hope the morning of those who are patient is near.
