

President Erdoğan Organizes Palestine Rally

News:

AK Party Istanbul Provincial Presidency is organizing a "Great Palestine Rally" on Saturday 28 October with the participation of President Erdoğan.

Nationalist Movement Party Leader Devlet Bahçeli said in his speech at the Parliamentary Group: "If my state wants it, my nation supports it and the conditions require it, I would be a disgrace if I did not take the path to protect the children in Gaza and to take the stand of humanity with a slingshot against missiles."

Comment:

The atrocities, genocide and massacres committed by the usurper Jewish entity towards Gaza, following the large blow to the usurper Jewish entity "Israel" by a small group from the Gaza region of Palestine on 7 October, have been the last straw for the Muslim peoples.

From Indonesia to Pakistan, from Yemen to Iraq, from Turkey to Jordan, from Egypt to Morocco, all Muslims stood up, filled the mosques, masjids, streets and squares to support their Palestinian brothers and sisters and showed that they are on their side.

Large-scale demonstrations were held in front of the embassies and consulates of the Jewish entity in Turkey and other Muslim countries, demanding the severance of all relations with the occupying Jewish entity, the expulsion of its diplomats, and a state of war with the occupying Jewish entity, and calling for armies to Al-Aqsa and Mehmetçik to Gaza.

Protests were organized in front of American embassies, military bases and NATO bases.

Unlike its predecessors, the massive civil commotions have caused deep concern to America and especially to the rulers of the countries in the region, which recognize, normalize, protect and take no action against the usurper Jewish entity.

In the face of this sensitivity of the Muslim peoples and especially the call for armies to Al-Aqsa, the rulers also took action, but instead of destroying the Jewish entity with their armies, they started to raise their voices in order to get in front of their own people and to calm their people.

President Erdoğan's organization of the "Great Palestine Rally" or Devlet Bahçeli's "slingshot against missiles" literature in the parliamentary group are of this kind.

However, no matter what they do, they will never be able to close the divergence and deepening gap between the Muslim peoples and their rulers, which emerged after the disintegration of the Ottoman Caliphate [Uthmani Khilafah] a hundred years ago and the nation states established in the geography of the Caliphate with the abolition of the Caliphate, which provided the political unity of Muslims, and which has grown even more with the recent Gaza attack.

Muslim peoples are fed up, tired and disgusted with the behavior of these rulers who do not think and feel like them and do not represent them.

They have realized that these rulers are the source of the Palestinian problem, along with many other problems in their own lives, and that it is these rulers who protect not Palestine, but the occupying Jewish entity and ensure its survival.

For these reasons, they have realized that unless they get rid of these rulers, not only the Palestinian problem but also many other problems in their lives will never be solved as they believe, think and want.

Muslim peoples want rulers who have high sensitivity, who believe and feel like them, who solve their problems without demanding it.

Muslim peoples want rulers who will look after and protect all persecuted Muslims wherever they are in the world, not only in Palestine, and who will severely capture and punish those who persecute them with their armies.

Only a Khilafah Rashidah (rightly guided Caliphate) will fulfil these demands of the Muslim peoples. Muslim peoples should work for this.
