Comment:

Foreign Minister Hakan Fidan has uttered similar words many times before. In a recent TV program, he repeated the same things like a broken record. At the joint press declaration held during his recent visit to Malta, Hakan Fidan said that they want to bring a lasting peace to the region on the basis of a two-state solution, thus establishing lasting security and peace for both Israel and Palestine and preventing this problem from posing any more risks to the region.

Hakan Fidan discussed with Ismail Haniyeh, the chairman of Hamas' political bureau whom he received in January, the immediate establishment of a ceasefire in Gaza, increasing humanitarian aid, the release of hostages and a two-state solution for a lasting peace. The issue of guarantor ship also came up during the meeting. On the issue of guarantor ship, Fidan said, "This includes also Türkiye. Let other countries be guarantors for "Israel". After reaching an agreement that both sides will agree on, the guarantor countries should take responsibility for the fulfillment of its requirements." It is clear that Fidan is working in a heartbreaking manner to ensure both the American plan of a two-state solution and the security of the Jewish entity. Meanwhile, Hamas has named Türkiye, Qatar, Egypt and Russia as guarantor countries for the implementation of the three-stage ceasefire agreement between Hamas and the Jewish entity, which was facilitated by Egypt and Qatar to put an end to the so-called war between Hamas and "Israel".

As Türkiye, with a mission given to it by the US, exercised power over some groups opposing the regime in Syria and led them astray, it is now pursuing a policy of exercising political pressure on Hamas in order to convince it of the dirty American plans.

All these misleading attempts and all the diplomatic steps taken in this regard constitute a protective armor for the occupying entity. These treasonous steps are in favor of the occupying Jewish entity. Türkiye and other Arab regimes attach great importance to the security of the Jewish entity. They provide all the help they can to sustain the vile entity that slaughters and carries out genocide against Muslims. So much so that the Jewish entity buys 60% of its oil from Azerbaijan and Kazakhstan. On October 7 and before, more than 1 million barrels of oil were transported to the Jewish entity through Türkiye. This oil is transported through the Baku-Tbilisi-Ceyhan pipeline to the Turkish port of Ceyhan and from there to the port of Eilat by tankers.

Without such aids and betrayals by these states and their rulers, the occupying Jewish entity would never have been able to hold on to that Blessed Land. The Jewish entity derives the power of its massacres from the silence and cowardice of these American apparatuses. It continues the massacre in Gaza as it pleases because it is quite sure that the leaders of the Muslim countries will not take even the slightest initiative against it. Therefore, even if tens of thousands of Muslims die in Gaza, the Jewish entity will continue to kill and massacre all living and non-living things in order to achieve its military and political goals. At the same time, it is confident that if the Jewish entity achieves its goals in Gaza, the rulers will continue normalizing relations with it as if nothing happened and will not hold it to account for the bloodshed and the martyred Muslims.

Therefore, the two-state solution within the 1967 borders is an evil American plan. Implementing this plan is a great crime and haram. The solution to the Palestinian issue is neither a two-state solution within the 1967 borders nor the establishment of a secular state in the entire land of Palestine.

The substantial and sole solution to the Palestinian issue is the establishment of the Khilafah (Caliphate) State, ruling by what Allah (swt) has revealed!
