

The Iranian Response to the Jewish Entity

News:

Iran responded to the Jewish entity with a number of drones and ballistic missiles, most of which were intercepted in the airspace of the Arab countries, surrounding the Jewish entity, before they even reached their target!

Comment:

People waited for hours in anticipation for what the Iranian response to the Jewish entity's bombing of the Iranian embassy in Damascus would lead to. Although people were surprised by Iran's sudden announcement of the end of its response, they expressed their joy in watching the missiles pass over them. They photographed the missiles, with the accompanying manifestations of joy, such as raising takbeer, hooting and cries of joy...

All of this expresses the intense yearning of Muslims in Palestine, its neighboring countries, and the rest of Muslim countries. Their yearning is to see someone fighting the Jewish entity and directing their fire at it. This is after the waves of humiliation and disgrace they experienced due to the existence of the Ruwaybidah rulers, agents of the West and servants of colonialism.

The theatrics of the Iranian response, which is restrained and restricted in accordance with American will, revealed several matters:

Firstly: The intense terror that gripped the hearts of the Jews, both young and old.

Secondly: The regimes neighboring Palestine are the first line of defense for the Jewish entity.

Thirdly: The West's commitment to stand by the Jewish entity if it is subjected to an external attack, as was demonstrated by the stance of Britain, France, the European Union, and ahead of all of them, America.

Fourthly: Muslims long for the liberation of Palestine and the eradication of the Jewish entity.

We give good tidings to the Muslims that the day when the Jewish entity will be eradicated at their hands is coming, insha'Allah. It is a day that is near and not far, with the establishment of the Second Khilafah Rashidah (Rightly-Guided Caliphate) on the Method of the Prophethood, after the removal of the agent regimes in Muslim countries.
