

You cannot Claim Gaza by Making Only Speeches Mr. Fidan!

News:

Turkish Foreign Minister Hakan Fidan made a visit to Egypt on August 5 at the invitation of Egyptian Foreign Minister Abdulati.

Comment:

Foreign Minister Hakan Fidan, who continues his contacts in Egypt, met with Egyptian dictator President Albulfettah al-Sisi. In addition to bilateral relations, the latest situation in Gaza is also on Fidan's agenda. On the first day of the two-day official visit, Fidan, together with Egyptian officials, made examinations on the El Arish Port and Rafah Border Crossing, where death, genocide, massacre and cruelty are continuing. Fidan, with the same utterance he always applies, said that Turkey will stand by the Palestinian people until the end and will continue to fulfill its moral and humanitarian duty with dignity. While Hakan Fidan was uttering these quotations, the raging occupying Jewish presence on the other side of the border was continuing to massacre Muslims. These tragicomic, mind-Decaying statements made by the Foreign Minister of Turkey, which is ranked as one of the top ten most powerful countries in the region, resemble the words of an activist. This statement made by Fidan does not prevent the massacre, genocide and crimes against humanity that the occupying Jewish presence has been carrying out in Gaza for months, but on the contrary encourages him even more.

Fidan, who also spoke about the assassination of Hamas political bureau chief Ismail Haniyeh in Tehran as part of his visit to Egypt, said that when the Jewish entity began to massacre Muslims in Gaza, the US came to them and the Egyptian authorities and said, "oh, tell the countries not to go to war." Again, when the Jewish entity struck Iran's embassy in Damascus, the US came in the same way, "oh intervene, tell Iran not to attack." He stated the same thing happened in the assassination of Ismail Haniye. The issue that needs to be focused on here is that actually Fidan's statements reveal a truth. It is also that America, which acts in its political orbit and uses Turkey as an apparatus for its own interests in the region, responds to all of these demands that it has asked for from the government by saying that the government is complete with submission and loyalty. These statements of Hakan Fidan are a clear confession of betrayal.

Hakan Fidan, who also made statements about Gaza, said, "Israel's owners should take the collar into their hands and own it now." Doesn't Hakan Fidan know that this harsh and wayward community, as if it were living in space, is being held by America and the West? Again, aren't you the one who holds the leash of the vile mutant existence and supports the Jewish entity on every platform, is it not you who are friends and allies with America, who has sent dozens of military munitions to the occupying entity?

At the same time, while America and the West protect and monitor the occupying entity, give it all kinds of support, trample on all human and moral values at the expense of protecting it, what did you do but condemn, talk, gather and roar? On the contrary, you have provided logistical support to the Jewish entity on everything for months. Despite the fact that your government has decided to boycott the Jewish entity, ships are still going from the ports of Turkey to the ports of the occupying Jewish entity. The Turkish embassy in "Tel Aviv" is still active. You were unable to close even this.

Does this mean to take care of your brothers! To support your brothers and sisters! To watch over and watch over them!

If you really want to protect the Muslims of Gaza, it will not be by condemning, talking, literature and shouting, but rather by sending armies to Palestine that will uproot the occupying Jewish presence from the blessed land of Palestine. That's how real ownership happens!

The rest is verbose...
