

## Prisoner Exchange

### News:

As part of the ceasefire agreement, on Saturday, 25.01.2025, 4 female soldiers of the occupying entity were handed over to Red Cross officials in Gaza, and 200 Palestinian Muslims held captive in the prisons of the occupying entity were released by the occupying entity.

### Comment:

The second phase of the prisoner exchange, which took place in the presence of a large group of mujahideen and in front of the people of Gaza, the world media and Red Cross officials, was followed with interest by the whole world.

Two of the most important facts that these images revealed and announced to the world are the following.

1- The occupying Jewish entity, which is claimed to have one of the most advanced armies in the world, has failed to achieve its goals despite the open support of America and Europe, and despite the rulers and armies of the Muslim nations who did not act against it and remained silent.

- Failed to destroy the mujahideen.
- Failed to rescue its prisoners.
- Failed to dehumanize and occupy Gaza.

For 15 months, it has turned Gaza into rubble with its massacres, genocide and crimes against humanity, but it was not the people of Gaza and the mujahideen who were buried under this rubble, but the colonialist Western civilization and the rulers and armies of the Muslim peoples.

2- It was observed that the soldiers of the occupying Jewish entity held captive by the Mujahideen were not subjected to any ill-treatment and were in good health, while the Muslim prisoners released by the occupying Jewish entity were tortured, subjected to inhuman ill-treatment, and their mental and physical health deteriorated.

This situation repeatedly demonstrates to all humanity the greatness of Islam and the superiority of Muslims over the values of the occupying Jewish entity and the colonialist Western civilization.

For humanity trapped in the darkness of the false values of the colonialist Western civilization, these images provide a positive ground for humanity to see the glory and light of Islam as an option and hope for their own lives.
