

Islam is Far from Interfaith Dialogue

News:

On July 5, 2025, a new worship dome at Arise and Shine Tanzania Church located at Kawe, outskirt of city of Dar es Salaam was inaugurated.

The Ministry is led by evangelist and self-proclaimed 'apostle' Boniface Mwamposa whose preaching in 2020 brought death tragedy of more than 20 worshippers from stampede who were rushed to get anointed with blessed oil.

Comment:

The inauguration ceremony was used to strengthen democratic and secular values by being stressed by President Samia on importance of preserving national cohesion and urged Tanzanians to safeguard the country's long-standing peace and unity as the nation prepares for the October 2025 General Election.

Furthermore, similar event was utilized to harness very dangerous inter faith agenda to the extent that several actions that represent that devilish campaign were highly observed and emphasized.

It was witnessed during ceremony that some Muslim leaders, politicians from Islamic background as well as ordinary Muslims making prayer together with non-Muslims within the church, some of them even making statements against Islamic teachings and thoughts.

The inauguration played pivotal role and was highly used as the platform for preaching and calling upon interfaith dialogue between Islam and Christianity in the name of social or religious cohesion within the country.

After the failure of the West in distancing the Muslims from their belief (creed) via the missionaries, orientalist, cultural works, the media, intellectual and political deception, they resorted means of interfaith dialogue that official founded in 1932 by France sending her delegation to Azhar University.

Their primary aim of interfaith dialogue campaign which is being pushed by capitalist states is to prevent the return of Islam to life's affairs as a comprehensive system. Since Islam threatens the survival of their capitalist ideology and civilization and destroy their interests and influence.

Through interfaith dialogue, Western capitalists work to remove the Islamic culture from the minds of the Muslims. They aim to achieve that by undermining confidence of Muslims with their culture, its sources and principles.

Also, the campaign meant to neutralize and weaken Islamic teachings of its innate strength in clashing with non-Islamic concepts of civilizations. No to mention western plot to stripping it of its most important characteristics which distinguish it from other religions, namely the social, economic and importantly the political aspect with which the Khilafah (Caliphate) as its state.

Muslims in Tanzania and elsewhere should be cautious of this ongoing international evil agenda of interfaith dialogue, both in terms of thoughts and actions.

Even though Islam allow legal cooperation with non-Muslims, but that does not extend to religious cohesion, and strictly prohibit s any participation on any acts of worship of other religions. The only true religion is Islam, that Muslims should engage in dawah so that all its tenets should be implemented under its Khilafah (Caliphate) state.
