

Terror, Horror, Flagrance, Corruption, Insecurity and Prejudice are the Natural Result of Friendship with Kuffar (infidels)!

News:

From May 31 up to June 3, 2017, Kabul has been the scene of a series of bloody explosions and violence. On Wednesday, May 31, a massive explosion occurred near the German Embassy in which, according to official statistics, nearly 100 people were killed and more than 460 people were injured. While the unofficial and real statistics show that the exact number of casualties were more than what had been announced by the officials, and yet dozens were missing at the site of the incident. On Friday, June 2, 2017, hundreds of young demonstrators began their protests against the government's inability for providing security to the people right at the site where the explosion had occurred and demanded the resignation of the President, Ashraf Ghani and the CEO, Abdullah Abdullah. The protests turned into violence from both sides (the people and the troops). As a result, 5 of the protestors were killed and dozens of others injured. Subsequently, on June 3, during the burial and funeral of a protestor – son of an Afghan MP – three consecutive explosions occurred which killed at least 7 and wounded over 100 people.

Comment:

The consecutive bloody occurrence of incidents has inflamed the people's concerns toward their future and has deepened the tribal-lingual gap among the people; political and tribal leaders. In such critical situation, the harsh criticisms raised by many figures of the Northern Alliance, who are mostly Tajik, were pointed towards Ashraf Ghani, the chairman of the National Security Council, the head of National Security Department and the commander of the General Guard of the Presidential Palace who are all Afghans and Pashtuns. They accused the government both in prevention of bloody incidents and plotting racial discrimination. Therefore, the estimated results of these massive explosions and violence will be categorized as below:

America has deliberately established the two-headed government led by the President and the Chief Executive Officer – a government divided by design internally, and completely lack legitimacy among the people. Such a government was crafted by USA in order to maintain the existence of its occupation armed forces in Afghanistan and the region. In such situation, the government faces fragility, internal crisis, and impracticality in all aspects of life, and constantly requires supports and backups by the occupation forces.

The Puppet Government of America in Afghanistan right from the beginning has made various efforts, including murder, terror and gradual disempowerment to seize the tribal leaders' and former Mujahedeen's power through accusing them in the act of corruption, and the Puppet Government of John Kerry hit its last nail in the coffin of Jihadists of Northern Alliance, who are mostly Tajik, by compromising with Gulbuddin Hekmatyar, the leader of Hizb-Islami Party who is an Afghan Pashtun and their rival during the Civil War. As far as the acting governor of Balkh province, Atta Mohammad Noor, is concerned, he described such type of explosions and suppressive crackdown of protesters as "coward conspiracy and a direct assault on a specific Political Party". Also, Salahuddin Rabbani, Afghan Foreign Minister and the acting head of Jamiat-e-Islami of Afghanistan Party updated on his official Facebook Page that he will soon declare his position about "terrorists within the government, and will clear the accounts with them".

Such type of policies administered by the students of Machiavelli has filled the country's atmosphere with racism, nationalism, and patriotism which have steered the feelings of

people toward the Tajik and Afghan, Pashtun and Farsi prejudice, which in reality contributes to the schemes of the invaders and colonialists to keep Muslim people of Afghanistan involved in fight against themselves as they would totally forget and ignore the invaders and colonialists.

If we contemplate on the strength, complexity and sequences of such planned explosions, one may find that the extent and power of such explosions are far beyond the technical ability and military facilities of armed militants which actually implies that these opportunities and facilities are provided by the agencies of CIA, Embassies of Kuffar, occupation forces, especially America and its rental killers. It is because all evidence related to this explosion indicates that the exploded tanker was targeted by missiles or bombs from the air to the ground from a great distance.

The fragile and two-headed government of John Kerry once again in this crackdown of the protesters proved that it doesn't privilege the rights, and according to them, the "Democratic Freedoms" of the people, but rather tries to preserve the interests of the infidels through suppression of protests and constant tyrannies. As the US Embassy in Kabul declared in a statement: "It welcomes peaceful protests in a democratic society, while in the protests on Friday, some political elements "narrow-mindedly" used this opportunity to provoke violence." It hypocritically confirmed the position of the government on the crackdown of protestors and counted the people's demonstration to be "narrow-minded".

From an international perspective, the massive explosion which took place on Wednesday near the entrance gate of the German Embassy represents that America sent a message through this massive explosion to Germany and other leaders of the opponent states that America is able to put the interests of Germany and others in threat throughout its colonized lands; therefore, it reveals that they must not be apathetic to the wants and desires of the US nor can they hide US interest. This was obviously observed on the trip of Trump to Europe, the NATO and G-7 conferences between Trump and Merkel and other leaders of Europe.

So, it is an undisputed fact that before the arrival of the fraudulent Ideology and evil Capitalism and its corrupted system – Democracy, Afghan people had never ever experienced the suicide blast throughout the history and their life. Various kinds of corruption, flagrance, poverty, unemployment, suicide, and explosion have been brought about to this country in parallel with the arrival of occupation and colonization of America and the NATO. Thus, if the occupation and colonization of the Crusaders don't come to an end, the sequence of these brutal attacks will continue by the first terrorist state- America- and its international counterparts and local mercenaries. Their mercenaries will put the blame of these terrorist attacks on the shoulders of well-known mysteries "Fundamental Islamic Terrorists" and will use the severity of war and terror against the Islamic Ummah to justify increases of occupant forces, intelligence and rental killers in the region and Afghanistan. We have had to reject the evil system of Democracy and friendship with infidels before experimenting it, but now the natural result of the implementation of this furious system and strategic and security treaties with America and NATO have brought about nothing but terror, horror, flagrance, corruption and insecurity to Afghan people. Yet, we can start from the beginning and reject and eradicate the origin of Capitalism along with its evil system – Democracy and the traitor rulers and mercenaries in all aspect of our life by standing firmly toward bringing a change based on the method of Prophet Mohammad (Peace Be Upon Him) to establish the only legitimate system "The Khilafah".
