Comment:

After, Micheal Ratney, the U.S. Special Envoy for Syria, said: *"It has become harder for the U.S. to convince the international players in Idlib to not resort to the needed military interventions."* Soon after this Prime Minister Yıldırım stated that *"If the U.S. hits Idlib we will close the borders as a precaution."* and closed the borders. And President Erdoğan made these remarks *"We are having meetings with Iran and Russia and they are going good, we will solve Idlib together with Russia."* on the subject. After these statements on the 8th-9th of August, Turkish, Russian and Iranian experts made preparations for the 6th Astana meetings in Tehran.

Apparently, these meetings were insufficient, so the Iranian Chief of Staff Mohammed Baqeri came to Turkey for a three day visit with a high-level military staff. Baqeri, who is the Deputy Minister of Foreign Affairs, Commander of the Revolutionary Guards, intelligence and security Under-Secretaries of the office of Chief of Staff and many other high-level military representatives, will make formal meetings with Chief of Staff Hulusi Akar, Minister of National Defence and MIT (National Intelligence Agency). After that, Russian Chief of Staff will visit Turkey.

No doubt the cooperation between Turkey, Russia and Iran on Syria that has been going on for quite some time now is not intended for good but for evil. While Turkey is moving together with the US, on the other hand, it is also moving together with Russia and Iran who are also serving the US politics.

Micheal Ratney, the U.S. Special Envoy for Syria, has called upon the opposition in the region and said that Hay'atu Tahrir Sham will be responsible for what is going to happen and that they should leave from there. This was actually the same pretext the wolf used to eat the sheep. The same pretext was used when millions of our brothers in Hama, Homs, Dera, Aleppo, Mosul and Raqqa were hit. Iraq, Afghanistan, and many others of our countries, were occupied using the same reason as claimed that Muslims there were a threat to the US lead Kuffar. They had to be either killed or subjugated. Now, the same plan is in effect for millions of our brothers in Idlib. They are trying to make them accept their subjugation with their threats (Lesser of two evils). The goal of the moves that began with the US threat is to finish the Syrian revolution by joining to Astana directed by the US, Turkish, Russian and Iranian evil coalition. If they can manage this, they will empty the city like Aleppo or make them live a life worse than death under the Assad regime! If they will not accept this and subjugate to them, they will turn the city into ruins like in Mosul! Of course, this is the evil plan of the Kuffar, but the plan that must be implemented is the plan of Allah.

Okay then, will Turkey, after all of this, stand beside the real terrorist states: the US, Russia and Iran, just like the occupations of Aleppo, Mosul and Raqqa? Will it see the whole population and our brothers, that it considered innocent in the past, as terrorist just because the US wants that? Will it continue to support them when the US and its allies commit massacres? Will it solve the issue of Syria with the murderer states that massacred millions of Muslims!

We have not forgotten what the US, Russia or what Iran has done! They are hostile to Islam and the Muslims and they are at war with the religion of Allah. Surely, Allah will help those who look after His religion. It is imperative today to stand beside the Muslims and to protect Idlib with everything, not to be together with the Kuffar who do these things. All governments who do not do this will share all the sins of the Kuffar and tyrants with whom they work. Our wish from our Lord is to bless us with the Khilafah al Rashidah (Righteous Caliphate) upon the Prophetic example that will move its armies to teach the Kuffar a lesson, will open its doors to Muslims, and will help victims instead of all these governments that see Muslims as terrorists and close their borders in order to serve their masters.
