

Pakistan Government Ready to Change the Journey and the Friend but not the Destination

News:

ISLAMABAD - The heads of the parliaments from six regional countries have called for establishing a joint mechanism to cope with the challenges of terrorism and security besides promoting the inter-region connectivity. (The Nation)

Comment:

The three-day conference started on Sunday in Islamabad and Speakers of Parliaments from Afghanistan, China, Iran, Pakistan, Russia and Turkey are participating in the conference. Out of these six countries, four are Muslim, and while Pakistan and Afghanistan have been directly involved in the War on Terror, Iran and Turkey have also suffered American influence but in different ways. The only interest of China and Russia in this gathering is to strengthen themselves against the USA even if they need to pretend to be friendly to Muslim countries, even though horrible crimes have been committed against Muslims in these two countries.

Pakistan National Assembly Speaker, Ayyaz Sadiq, addressed the conference and openly expressed his views on the economic loss that Pakistan has borne by participating in this so-called War on Terror. \$119 billion loss has been suffered since 9/11. Here what he did not mention is the fact that Pakistan, since its creation, is in a constant state of loss, be it physical, economic or ideological. The War on Terror has cost 70,000 lives in Pakistan. Pakistan Senate Chairman, Raza Rabbani, also addressed the conference and talked about the miseries of Palestinian, Syrian and Iraqi people and it was shown on all TV channels. It's ironic but it was almost like first time their sufferings were recognised but only to enhance the suffering of their own. It will be like fooling ourselves if we become hopeful that the Pakistani leadership has realised that friendship with America is not beneficial for the people. Actually, constant rejection and pressure from Trump Government are making these puppets squirm.

Pakistan needs to realise that even if it feels the emergence of a nexus between India, US and the Jewish entity, solution is not in making its bonding strong and trying to find a friend and sympathiser in other non-Muslim states like China and Russia. Any agenda that should be brought forward must focus on the unity of Muslims. The Jewish entity is like a cancer in the Ummah's body. Why it was not addressed at the proper time? The Syrian revolution has taken 400,000 lives in the last six years and despite having resources and manpower, the required help was not provided. The USA has been destroying Muslim countries systematically, so how come Pakistan even thinks that it will stay safe by playing in the hands of the US? Ultimately, all the traitors will suffer the consequences of abandoning their people by the very master they abandoned them for. An example is the quick disowning of Raza Rabbani by the Pakistan People's Party, who he has been its senior member for a long time for the reasons of showing clear dislike for American policies.

These issues being publically addressed and recognised left an impact on the people, just like when a drowning man is seen by the people on the shore as the people on the shore have the power to save him. And what happens to someone who does not save his drowning brother deliberately? People of power! Remember to fear Allah as He has put you in a test with this power. Recognise your responsibilities and act like a Muslim should act. Do not abandon your brothers and sisters for the comfort of this world as this is a temporary place and remember giving them false hopes is a bigger crime because then you are lying and being a hypocrite. People of Power! Do not use the miseries of these people for gaining sympathies as you left them alone to be hunted down when you could save them. Fear Allah and change your ways even if it brings hardship and give Nussrah to Hizb ut Tahrir for the establishment of Khilafah as that will be the source of actual power and safety OR wait for the wrath of Allah as it will reach every traitor.

﴿وَلَا تَلْبِسُوا الْحَقَّ بِالْبَاطِلِ وَتَكْتُمُوا الْحَقَّ وَأَنْتُمْ تَعْلَمُونَ﴾

“And do not overlay the truth with falsehood, and do not knowingly suppress the truth” [Al-Baqara: 42]
