

The Extent of Your Betrayal Has Surpassed the Mountains

News:

Within the context of the Fifth Turkey-Russian Federation-Iran Trilateral Summit in the Astana format, President Erdogan said: "During the summit, we made important decisions that will create hope for a political resolution in Syria. We have once more declared that all of us have the same sensitivity when it comes to the territorial integrity and political unity of Syria." (NTV Haber, 16.09.2019 ntv.com.tr)

Comment:

The fact that the two leaders of Muslims and the fierce kafir Putin warmly posed for the cameras in the same frame surely has annoyed every single Muslim. The US plan on their mind, the enthusiasm of pleasing them in their heart, and smile on their face while shaking the bloody hands of cruel and kafir rulers who have the blood of hundreds of thousands of innocents on their hands constitute the final point of impudence. The extent of your betrayal has surpassed the mountains. Your disgrace has reached the lowest of the low.

During the Syrian Revolution, the Kuffar never have comprised on their plans. Despite the fact that they changed the style in the execution of their plans in different periods of time, they always have preserved the protection of the present system which they set as a target, and their plans in the direction of its continuation as a red line. In the times when the opponents on the field reacted very powerfully, the Kuffar paved the way for the betrayal of the revolution by making some commitments to the group leaders who lack political foresight through games of inviting them first to the table.

The opposition groups who are made ineffective on the field and at the table, and opposing this, the cruel regime whose power and domination increases day by day. No doubt that Iran and Russia, who support the cruel regime on the field in deed with all kinds of weapons and human resources, have killed thousands of innocent Muslims regardless of the target, and destroyed the cities and made them uninhabitable, and have exerted an influence on the current process. Again, as mentioned above, the withdrawal of the groups lacking political foresight, or their state of being rooted to the borders where they were fortified, caused this destruction process.

Similarly, while Turkey's political, economic and demographic pressure on groups broke up the groups on the field, it (Turkey) gave cause for the loss of the revolution's compass by the military operations it carried out in Syria within the framework of US plans on the other hand. Yes, these three states almost precisely fulfilled and are fulfilling the subcontracting duty in Syria on behalf of the US.

The groups, who are invited to the table within the framework of the plans implemented incrementally, are politically and militarily passivated. Thus, the political role of the opposition groups became to be completely represented by Turkey. Militarily, these opposition groups are either abolished or bowed to the regime, or their presence became uncertain by cooperating with the Turkish army. Structures which do not enter these processes are being considered as terrorists, and plans of fighting them are being carried out. For the time being, the only threat to these three countries and the cruel regime are the structures in Idlib and around who do not bow. It appears that the knot here will be untied by Turkey on behalf of the US. Up to now, the de-conflict zone, tension reduction zone, observation points and ceasefire processes caused the increasingly narrowing of the Idlib circle. President Erdogan's willingness to take on more responsibility must be a

sign that he will take a greater active role in the dismantling of the structures in this region.

President Erdogan who, as recently as yesterday, stated that he is against the cruel Syrian regime and does not accept a transition process with Assad, has made the opponents depart from their way and goal by this heroic and cunning rhetoric. However, a new constitution which is their true intention, and the fact that he openly declared that the political unity/regime should be protected, has shown his policy which is based on lies and deception. The rulers of these three states, who precisely fulfil their subcontracting duty on the field and at the table, declared in common language to the US who is the owner of the process, that the conditions for the final solution and approval, in other words for the Geneva table, have been prepared. It appears that the draft on which the three states agreed on will be presented to the US during the UN meeting at the end of this month. With the approval of the plan by the US, the Geneva table will be set and the new constitution and political process will be evolved into a much further stage. Of course, it does not seem possible that a final political process will be completed until the Idlib issue is solved. Apparently, the US will try to extend the process until it strengthens the PYD structure which it formed in the east of the Euphrates.

On the one hand, Turkey pours on the protection of its borders from the so-called terrorists; on the other hand, it puts forth the strangeness of joint patrol, safe zone with the US who gives all kinds of support to the elements it names as terrorists. Erdogan who talks during every speech about the cost of refugees for Turkey, both pores on the deportation of the refugees in Turkey and wants to solve the Idlib issue as soon as possible in order to prevent a new wave of migration. However, these rulers who even cannot go a span beyond the US policy will also have to wait for the time predestined by the plan's owner.

Unfortunately, the fact that the rulers of our country welcome the Russian and Iranian rulers, who killed nearly one million Muslims, on top level, declare the Muslims who are opponent to themselves as terrorists and talk about humanity and stopping the bloodshed was really shameful. A cruel system wherein the perpetrators of this much destruction and massacre are considered innocent and right, and those who are slaughtered and exposed to cruelty as guilty. The leaders who consider economic interests more valuable than the shed blood, hold political interests above all and compete with one another to serve the states who are their masters cannot bring anything but damage to the Ummah as well as the humanity. The blood of those who sacrificed their lives, blood for 8 years in order to overthrow the cruel regime and bring the ahkaam of Islam into being are being wasted by the hands of the leaders and rulers who betray the Ummah. Approving, mentioning, and contributing to the plans like democratic political process, new constitution and the continuation of the political authority, is being in the same direction as the oppressor and kafir.

Certainly, this Ummah will bring out the System of Islam that will solve its problems properly, and the Khulafaa ar-Rashideen who will refer and manage the issues of the Ummah. And that very day, the oppressors and kuffar will get the taste of fear and the oppressed will get the taste of courage.
