

It is the American Terrorism which has turned Afghanistan into a Lab!

(Translated)

News:

Donald Trump, in an interview on Fox News broadcast on Monday, said that his concern over pulling the US troops from Afghanistan is because the country will turn into a lab for terrorists. During the interview, he called Afghanistan as 'Harvard of terrorists', adding that "even if the US did remove its troops, it would leave a very strong intelligence presence in Afghanistan." He also recounted that the US military officials have told him that it would be better to fight terrorists in Afghanistan than at home.

Comment:

For the time being, it must have unequivocally been proven to the world that "terror and scheming terrorism" is instinctively stemmed within the DNA of the US. Those who still don't happen to believe this evident fact, I call on them to investigate once again about the US history, then you would obviously realize how Americans completely exterminated more than 100 million indigenous American-Indians, how they turned Hiroshima and Nagasaki into ashes during World War II by using atomic bombs, which in addition to massacring more than 220,000 people had catastrophically caused more than hundreds of thousands of them to suffer from acute illnesses and deformities in the aftermath of the incident.

During the World War II, the heavy bombers of the US Air Forces raided 3,900 tons of bombs over Dresden, a city in Germany, and dropped napalm bombs during four strong assaults which resulted in complete ruination of 34 square kilometers of Dresden in less than 15 hours. Erhard Mundra, a member of the Bautzan Committee (an association of former political prisoners in German Democratic Republic) wrote that according to veteran Lieutenant Colonel D. Matthes, former General Staff officer of the German Army in the district of Dresden, "35,000 victims were fully identified, and another 50,000 partly so, whereas a further 168,000 victims could not be identified at all."

One could not forget America's involvement in the massacre of 3 million Vietnamese during 1955-1975 that used to drop 500,000 bombs a year on Vietcong and burning the forests, agricultural lands and humans through the use of chemical and napalm weapons. In the 1950s, the Americans killed hundreds of Korean civilians; and over the past two decades, they have massacred more than two million Muslims in the Islamic lands. Do you know how the US has been manipulating crises and/or plotting terror so far in Latin America so as to consequently pave the way for its political intervention in those countries?

It is indeed the terroristic measures of US and NATO which have turned Afghanistan into a theater of terror for the entire world. Trump must have

unequivocally forgotten to use the phrase “Afghanistan, the Harvard of American terrorists” during his speech because the Afghan war has dramatically helped expand the ability and capability of American generals to an extent as some of whom have happened to secure high positions in Pentagon, CIA, and other high-level government offices following their experiences of waging war and shedding the blood of Afghan Muslims in Afghanistan.

As Dajjal constantly attempts to distort the truth; Trump, one of the prominent Dajjal of the era also does so. The recent irresponsible speech of him signifying that Afghanistan would turn into a “lab of terrorists” after the US forces withdrawal is a totally deceptive and distortive account. Because Afghanistan had already been turned into a lab for failed US military and political strategies as well as for deadly use of weapons, namely MOAB by American and Western terrorists; as over the past 18 years, the US forces have manipulated such an atrocity in Afghanistan which has consequently resulted in killing and wounding of more than half a million people, and causing hundreds of thousands of Afghans to flee the country and drown in seas in order to seek asylum in the European camps. In the course of its existence in Afghanistan, the US has experimented with various types of light and heavy weapons and military tactics over the helpless people of Afghanistan.

Trump’s recent address amid the ongoing US-Taliban peace talks communicates a clear, but totally illusory message, which is the US, after two decades of massacring the people and destroying the cities and villages of Afghanistan, is again endeavoring to secure its conspicuous roles and influence in order to strengthen its intelligence networks and mercenaries in the political future of Afghanistan.

But the American and Western criminals, including Trump, the father of all terrorists, must open their eyes and realize that the Islamic Ummah is approaching a glittering dawn. The matter of Afghanistan, like any other matters of occupied territories of Ummah, doesn’t get resolved through reconciliation and dialogue with the invaders, but will be possible only if all Islamic lands are once again attached to the vast body of the Caliphate following the conquests by the unwavering army of the upcoming virtuous Caliphate – which is sooner to happen, Insha Allah!

“Indeed, their appointment [fatality] is for the morning. Is not the morning the return of Caliphate] near?” [Hud: 81]
