

Press Release**“Fourteen Years of Terror and Barbarity” Campaign Ends**

The campaign of “Fourteen years of terror and barbarity” which started on 7th October 2015 to commemorate the anniversary of the US and NATO’s ongoing invasion of Afghanistan, has ended successfully. The campaign was aimed at exposing the invaders’ crimes, treason, and deception as well as to unveil the real goals behind their colonial programs and plans. Therefore, the campaign was received warmly by the public who also took part in spreading the campaign’s messages and slogans across the country.

Throughout this campaign the outcomes of the 14 years of invasion, across all spectrum of lives, were examined through producing articles, analysis, audio and video materials within the Islamic-intellectual framework, designed for providing alternatives in approach in order to solve the country’s problems. As aimed, it therefore, helped the public to understand how they can resist the occupation through these alternatives and to be able to dismantle all of the colonial plans and programs.

It is worth mentioning that as always the foreign funded media outlets in Afghanistan displayed their duplicity to the Ummah by not reflecting upon this campaign and to help the Afghan public understand the alternative solutions to the crisis that Afghanistan is suffering from. Consequently, the media has confirmed that they are being dictated by the western embassies and are paid to help the colonialists achieve their agendas.
