Western Invaders Have No Regards for Humanity and Human Values!

In a newly published report by the International Criminal Court, it recounted that from the year 2007 until now 37 thousand civilians have been killed. Among these murdered majorities are children, women and elderly. In addition, the ICC also alleged international forces in Afghanistan that they had caused serious harm to detainees by subjecting them to physical and psychological abuse. The pro-government forces too, have carried out "gruesome" torture to over 5,000 prisoners.

The reports published by the colonialist countries and their organizations are not trustworthy and reliable, as they usually downplay the number of people killed, murdered and displaced etc., and they usually get their figures from the media and their puppet government officials without going to the afflicted areas and meeting the involved people directly. It is common knowledge that there are hundreds of other barbaric and vicious killings that are not even reported or are reported on a much lower scale. Therefore, the reality is far worse than the statistics published.

We are expressing all these murders, assassinations, crimes and terrors ensued by the US, NATO and installing their puppet government invaders implies the absence of any human values by the Western colonialists and the inability of international colonial institutions such as ICC. We are addressing all those factions seduced by the infidels that: For the mirage of peace, is the experience of 14 years of war not enough? Is it not a shame to the Muslim and Mujahid people of Afghanistan to pay such a high price for democracy after the defeat of communism? Does your intellectual and political ignorance hold the optimism to your future? Instead, let us revive and instead of the rope of the colonialists, let us all hold firm onto the rope of Allah (swt) to attain success both in this world and in the Hereafter.
