

Press Release

America uses Afghanistan as a military project to gain its strategic interests

(Translated)

On Friday, because of a barbaric raid of America and NATO forces in Sangeen District of Helmand province, 15 members of one family, five members of one another family and a number of community people including women, children and elders were martyred while Ashraf Ghani, Donald Trump and General Nicolson, chief commander of colonists forces in US Congress were on call and discussing the dispatch of more troops to Afghanistan.

America doesn't suffice with current barbarism, but trying to expand and sustain it. During a Q&A session in the military committee of Congress under John McCain, General Nicolson was asked: "Overall, in your opinion, are we currently winning in Afghanistan?" He replied, "We are in a stalemate situation. Fighting has caused severe casualties for Afghan forces and the government control only two thirds of the soil. Efforts of government of Afghanistan to bring Taliban into peace negotiation haven't brought any fruit and apparently the government cannot control the situation by itself." He went further, "Pakistan, Iran and Russia are trying to support Taliban and provide legitimacy to them, and at the same time, moving to a direction to weaken the central government." So all these matter are evidence that Afghanistan will get changed to a hotspot between America and rival colonist competitors in the region.

Hizb ut Tahrir Wilayah Afghanistan reiterates that the only way to foil regional politics of (USA and West), colonialization and occupation of Muslims land and to put an end to the means of such policies as military projects and proxy wars is to join efforts to remove puppet rulers, get rid of dictatorships and cut off relations with colonialist states.

Also Muslims should hold firm to the rope of Allah (swt) that is Quran, Sunnah of the Prophet (saw), Consensus of his companions (ijmah al-sahaba) and Shara'i Qyas (or analogy). As such, the energy and zeal of the Muslim Ummah should be directed towards re-establishment of Khilafah (Caliphate) on the method of the Prophethood; a system which will protect the blood, honor and territories of the Ummah.

As the Messenger of Islam Mohammad (saw) has been narrated to have said:

«إِنَّمَا الْإِمَامُ جُنَّةٌ يُقَاتِلُ مِنْ وَرَائِهِ وَيَنْقَى بِهِ»

"Indeed, Imam "Khalifa" is a shield, behind of which you fight and it protect you." (Muslim)
