

Press Release**OIC Conference: Discussing “Islamic Values of Sustainable Peace, Solidarity and Development” while adhering to Capitalism and the Democratic System that contradict Islam is certainly a Deception**

The 45th session of Council of Foreign Ministers of the Member States of the Organization of Islamic Cooperation (CFM) was held in Dhaka on May 5 - May 6, 2018. The theme of the conference was: "The Islamic Values of Sustainable Peace, Solidarity and Development." The conference ended with 39 points of declaration with strong emphasis on “freedom for Al-Quds” and deep concern for the systematic brutality on the Rohingyas.

Not surprisingly, the declaration was no more than useless lip service and resolved to shamelessly follow UN Resolutions to solve(!) issues of the Palestine and Rohingya. The fact is that all the “leaders” of OIC are faithful servants of their masters, the Kaffir Colonialists, and these “leaders” always deceptively invoke the Ummah to have faith on their masters. Their role is to implement the resolutions of the UN that were made to validate the killing of innocent Muslims around the world and facilitate the Western powers to loot the wealth of the Ummah. While it has sufficient strength to save lives and sanctity of the oppressed Muslims in Arakan and Palestine, the OIC always employs its usual treachery against the Ummah by being the arm of UN which is run by the US and other enemies of Islam to further their political objectives. Scrutinizing its 40 years of activities, no sensible person now relies on OIC for the liberation of Palestine or the end of the misery of the Rohingya. Even though the OIC leaders have criticized the illegal Jewish occupation in Dhaka summit, it, paradoxically, recognizes the state of ‘Israel’ by being committed to the resolutions of UN that has been protecting the state of ‘Israel’ since its illegal birth. Despite it being evident from the history that UN has the least care for Muslims, OIC is still appealing to the Muslims to rely on UN and emphasizing its member states to continue remaining engaged in the UN system whereas we saw practically no serious intervention from the UN to protect the existence of Muslims in Arakan. Hence, underlining the importance of UN-OIC cooperation by the OIC leaders is intended to keep the mask that seeks to camouflage the ugly reality of western colonialism in the Muslim lands. In Dhaka Summit, we observed the proposal by Sheikh Hasina’s government to include India in OIC as an observer in the reform of the organization – a clear conspiracy to allow Mushrik India to extend her domination over the Muslim nations, just like the US, to strengthen her friendship with India, is allowing her to achieve her interests in Afghanistan and the Middle East. We are also not deceived

by the protest from the government of Pakistan, the US agent who is facilitating the US to dominate in Afghanistan and allowing India to secure her interests there.

Take heed, O Muslims of insight! We from **Hizb ut Tahrir** want to remind once again that OIC will always act as a distraction for the Ummah from realizing that they direly need a common political leadership which is able to unify them. It is not allowed for Muslims to be divided under more than one ruler or into multiple nations, and regarding this our Prophet (saw) said, «إِذَا بُويعَ لِخَلِيفَتَيْنِ فَأَقْتُلُوا الْآخَرَ مِنْهُمَا» **"When the oath of allegiance has been taken for two Khalifs, kill the latter of them" [Sahih Muslim]**. This instructs the Muslims to be unified under one leader and one State.

Dhaka Summit's motto was "Islamic Values for Sustainable Peace and Development", but we know that we cannot uphold the values of Islam unless and until we implement the system of Islam comprehensively. Discussing about the values of Islam while accepting and adhering to the evil ideas of capitalism and democratic system is a clear deception with the Ummah. By now, it is as clear as daylight that the root cause of the current problems of the Muslims is the absence of the unitary ruling system of Islam, the Khalifah (Caliphate), which can have all the abilities to protect the Ummah residing in any part of the world, whereas the sole purpose of OIC is to maintain the Western imposed status-quo of keeping the Ummah divided under the banner of different nation states. So, the West will always use the OIC to suppress the rise of political Islam and contain Muslims from being unified under the shade of Allah, the Khalifah (Caliph). The true 'sustainable peace and development' cannot be ensured from a bunch of agents promoting Western agenda under the name of Islam; only the sincere and bold guardianship of the second righteous Caliphate can make it a reality by looking after the affairs of the Ummah as per the rules of Islam.

«السُّلْطَانُ ظِلُّ اللَّهِ فِي الْأَرْضِ، فَمَنْ أَكْرَمَهُ أَكْرَمَهُ اللَّهُ، وَمَنْ أَهَانَهُ أَهَانَهُ اللَّهُ»

"The Sultan (i.e. the Caliph) is the shadow of Allah on earth, so whoever honors him (the Caliph), Allah will honor him, and whoever despises him, Allah will despise him." [Al Bayhaki]
