## The blood of Muslims is being shed while their rulers are bearing witness and there is no recourse!

(Translated)

The Jewish entity continues its aggression against the people of Palestine and persists in its crimes before the ears and eyes of the world, undeterred by any United Nations resolution or ruling from the International Court. The number of martyrs counted has exceeded 40,000, with possibly an equal number still trapped under the rubble. The number of wounded approaches 100,000, while those who remain alive are suffering immensely from hunger. The daily scenes of suffering, displacement, destruction, starvation, disease, burning, and terrorization, are almost beyond description.

The war has now entered its tenth month, with no signs of this brutal aggression ending or these daily massacres of innocent children, women, and elderly ceasing. The entity justifies its massacres every time with blatant lies and deception. It has become clear to every observer that this usurping entity is not deterred by negotiations, nor by words of condemnation, nor are threats effective against it. Since its creation by the criminal British and the assistance of collaborators, this entity, as described by the Almighty in the Holy Quran, is a deceitful nation that does not uphold agreements or honor any trust. Allah (swt) said: ﴿أَوَلَمْ نَعَاهِدُوا عَهْدًا نَّبِيَّهُ قَرِيبٌ مِنْهُمْ بَلْ أَكْثَرُهُمْ لَا يُؤْمِنُونَ﴾ **"Is it not [true] that every time they took a covenant a party of them threw it away? But, [in fact], most of them do not believe."** [Surat Al-Baqara:100]. And He (swt) said: ﴿الَّذِينَ عَاهَدْتَ مِنْهُمْ ثُمَّ يَنْقُضُونَ عَهْدَهُمْ فِي كُلِّ مَرَّةٍ وَهُمْ لَا يَتَّقُونَ﴾ **"The ones with whom you made a treaty but then they break their pledge every time, and they do not fear Allah."** [Surat Al-Anfal:56].

This has become evident to all and requires no proof. Every rational person, and even the children of Muslims, understand and recognize this.

The collusion of the rulers of Muslim lands is well-known, whether it be the surrounding countries like Jordan, Syria, Lebanon, Egypt, and Saudi Arabia, or the rest of the Islamic countries. Their silence, which reveals their cowardice and subservience, has exposed their true state. Some even wish for the war to end with the defeat of the Mujahideen, a victory for the Jews, and a lesson for others so that no one dares think of Jihad again. They want everyone to accept the solutions imposed on them by Western powers, whether it be the two-state solution, displacement to neighboring countries as a substitute homeland, compensation, or other political solutions aimed at preserving the deformed entity and continuing to weaken Muslims while maintaining the divisions created by the Sykes-Picot borders.

Here, we ask, especially in light of the current tension in the region after the entity carried out a series of political assassinations in the capitals of Muslim countries, Damascus, Beirut, and Tehran, that claimed the lives of significant figures. The Jews would not have dared to do so with such brazenness had it not been for the collusion and cooperation with agents and spies in those countries. We wonder about the anticipated response, especially after the leaders in these countries raised their voices with threats and warnings!

Iran and its party in Lebanon have previously threatened that the response would be strong and deterrent, making the enemy regret its actions, following the Jewish entity's attack on the Iranian consulate in Damascus, which killed seven Iranians, including the commander of the Quds Force, Brigadier General Mohammad Reza Zahedi. Similarly, after the assassination of Sheikh Al-Aroui and his companions in the southern suburbs of Beirut, Iran and its party in Lebanon vowed a strong, deterrent response. However, the response was weak and laughable! The Chief of Staff of the Iranian Armed Forces, Sardar Bagheri, said that Iran sent a message to the United States through the Swiss embassy, warning that if the U.S. cooperated with the Jewish entity in its potential future actions, American bases "would not be safe" and would be at risk! At that time, America's cooperation in the response was clear, as it intercepted the drones over Jordanian airspace from American bases there, thus thwarting the

response. No missile or drone reached the entity, leaving it safe and secure. President Joe Biden even told the entity's Prime Minister, Benjamin Netanyahu, during a phone call, "You should consider tonight a victory because the current U.S. assessment is that the Iranian attacks were largely unsuccessful and demonstrated the superior military capability of Israel." American bases, which are just a stone's throw away from Iran in Qatar, Iraq, or Jordan, remain secure, and none of the threats were carried out!

The mullahs have ruled Iran for over 45 years, constantly labeling America as the greatest enemy and threatening to erase the Jewish entity. However, their collaboration with America in Afghanistan, Iraq, and later in Yemen has exposed their loyalty to the U.S., revealing them as its ally and tool to threaten the Gulf and deepen sectarian divisions among Muslims.

How many times have we heard from Mr. Hassan Nasrallah that the party possesses the forces and equipment capable of wiping the entity off the map if it wished or if the entity waged war on Lebanon? Despite his threats, planes continue to fly over Beirut, warning and threatening, assassinating high-ranking party leaders one by one in targeted strikes, as happened with the assassination of Fuad Shukr! This weak stance and empty threats are what have emboldened the Jewish entity to continue its assassinations, even killing Ismail Haniyeh while he was hosted by Iran in the heart of Tehran. Now, more than three weeks have passed, and some are still waiting for a decisive response, anticipating a sweeping attack from the fronts of resistance to eliminate the entity and avenge the direct aggression on both Iran and its party in Lebanon!

#### Facts That Must Be Understood to Comprehend the Current Events:

- The global order today is a colonial one, led by the United States. All international institutions and organizations are either controlled or influenced by this colonial order, which conspires to weaken Muslims and prevent their revival and unity.

- These rulers are conspiring and collaborating to extinguish the flame of Jihad, protect Western interests, and align them with their personal interests to safeguard their thrones and power. Their decisions are aligned with the colonial system's will, and they work to maintain its influence and control.

- All these rulers do not care about the interests of Muslims and fear that the war might extend or last longer, making it difficult to control the emotions of the sincere members of the Ummah, who are boiling with anger and ready to retaliate against them and overthrow the entity.

- It has become evident that the entity is fragile and that the Ummah is indeed capable of uprooting it under sincere leadership. The rulers realize that this movement will begin by removing them, as they are the obstacle to liberation from oppression, tyranny, aggression, and occupation.

- Threats and warnings do not change the situation; they merely expose weakness and give the entity the upper hand, allowing it to continue its aggression, assured that no one will retaliate against its aggression or take revenge for its offenses and arrogance.

- Resorting to so-called international legitimacy and international law is mere nonsense, delusion, and deception of the people, which is of no benefit. The evidence for this is too numerous to count.

And after that: How much blood will be shed, and how many lives will be lost before these rulers move their armies to support the oppressed?! The answer to this lies in the words of the Almighty, Al-Hakeem, in His Decisive Revelation: ﴿وَلَوْ أَرَادُوا الْخُرُوجَ لَأَعْتَوْا لَهُ عِدَّةً وَلَكِنْ كَرِهَ اللَّهُ انبِعَاتَهُمْ فَتَبَطَّهْمُ وَقِيلَ لَهُمْ أَعِدُوا مَعَ الْقَائِدِينَ﴾ **"And if they had intended to go forth, they would have prepared for it [some] preparation. But Allah disliked their being sent, so He kept them back, and they were told, 'Remain [behind] with those who remain.'"** [Surat At-Tawba:46].

This is the stance of all the rulers of Muslim lands, especially those countries that truly possess political and military power, such as Turkey, Iran, Pakistan, and Egypt. Instead of imposing a blockade on the entity, they supply it with food and open doors for its relief, like Jordan and the Gulf States. Therefore, it is not surprising to see the demoralization and betrayal from these weak entities, resorting to negotiations in the hope that American and entity promises of a ceasefire and allowing food and humanitarian aid into Gaza will suffice.

They seem content with maintaining the status quo, believing that enough fighting has occurred. It's as if they are trying to deceive people into thinking that they have achieved victory through intimidation, and that the economic losses inflicted on the entity due to threats alone are enough to weaken or defeat it. This is pure political deception and an insult to people's intelligence.
