

Press Release

**To the New Syrian Administration:**

**The Jewish Entity is Violating the Land of Islam and Killing  
Innocent People, and You Are Silent!**

(Translated)

There are reports that the Jewish entity launched an attack on Wednesday 14/1/2025, with a drone on the village of Ghadir al-Bustan in the Qunaitra Governorate in southwestern Syria. Sources reported that the attack resulted in the death of 3 people, including the village headman. Other sources reported that a drone belonging to the Jewish entity launched an attack targeting a military convoy of the Military Operations Department in the town of Ghadir al-Bustan in the southern Qunaitra countryside, which led to the death of two members of the Military Operations Department and a civilian. The strike coincided with the Military Operations Department conducting a security campaign in the town in search of weapons. The day after these attacks, the response of the new Syrian administration came from the tongue of its Foreign Minister Asaad al-Shaibani from Turkey after his meeting with the Turkish President and his Foreign Minister, as he said: "We sent messages that Syria will not be a source of threat to any country, including (Israel), and just as they want to preserve their security, they must preserve the security of others," according to Turkish television. This is a dull and repeated response on more than one occasion.

This is not the first time that the Jewish entity has launched military attacks on Syria. It was preceded by dozens of attacks and hundreds of air sorties that targeted various military installations, research centers, and others. We have not seen any reaction from the new Syrian administration. It has not moved a finger except the move by the permanent representative of Syria to the United Nations demanding that the Jewish entity withdraw from Syrian territory, calling on it to put an end to its aggression against Syria, and sending two identical letters to both the Secretary-General of the United Nations and the Security Council in order to condemn the Jewish attacks on Syria!

Is this all that the new Syrian administration can do regarding the attacks of the Jewish entity on Syria, its killing of innocents, and its withdrawal of more than three thousand military pieces, both light and heavy. Then this administration comes to reassure the Jewish entity that its security is part of Syria's security, so how is it different from the old criminal regime?!

It seems that this administration is trying to exploit the preoccupation of the Ummah in general and the Syrians in particular with their joy at the demise of the criminal regime in Syria, and is trying to exploit the circumstances in the region and what is happening regarding the ceasefire agreement in Gaza. Does the Syrian administration think that they (the Ummah) are not aware of its actions: that it is silent about the crimes of the Jewish entity in Syria, it is being led by the international system that is hostile to the Ummah, and by the worn-out Arab system that is suffocating the people, that it does not have a real project for change, and that it is not much different to the previous regime, since it is still arresting many of the members of Hizb ut Tahrir and others, and torturing them in its prisons?!

Our message to the new Syrian administration is: The Ummah did not revolt in Syria in order to be ruled by a regime that is not much different from the previous criminal regime. It will not accept a regime close to its regime, nor will it accept a cowardly regime that remains silent about the continued attacks of the Jewish entity on Muslim countries. Nor will it accept a regime that continues to tear the Ummah apart into cardboard entities that are agents of the major powers and are subject to their will and influence. The Ummah that made all those sacrifices to get rid of the criminal Assad regime will return to make similar and greater sacrifices for change based on its creed, and rule by Islam under the second Khilafah Rashidah (Rightly Guided Caliphate) on the method of Prophethood to please Allah (swt), eliminate the Jewish entity, get rid of the influence of the major powers in our countries, and then carries Islam as a message of guidance and light to the entire world.
