

Press Release

The West Saves the Egyptian Regime from Drowning, Exhausts People in Earning their Provision of their Day, and Punishes them for their Support of the People in Gaza!

(Translated)

Egypt in 10 days from the brink of bankruptcy to attracting 40 billion dollars... What happened? Under this title, Al-Nahar Al-Arabi spoke on Thursday, 07/03/2024, saying: "In just ten days, Egypt has moved from the brink of economic disaster to unlocking more than \$40 billion in investments and loans from the UAE and the International Monetary Fund, with the potential for more from Saudi Arabia and others. As part of this, Egypt made, on Wednesday, its largest interest rate increases ever and allowed its currency to fall by more than 38% in a long-awaited flotation". Bloomberg report quoted: "These moves were the culmination of global efforts, led by the Gulf states and the International Monetary Fund, and with the support of the United States, to achieve stability in a country whose stability is considered crucial for the Middle East and which was affected by high inflation and the financial crisis due to the war on its borders."

The West's view of Egypt is different from its view of any other area of influence, no matter how vast or wealthy it is. Egypt remains the calibration point in the conflict between the infidel (kufr) West and the Islamic Ummah. Therefore, it is said that whoever owns Egypt owns the world. Egypt, with its location, resources, capabilities, and enormous human energies, is qualified to bring about a significant change, and the West is well aware of this and is working to ensure that Egypt is not a starting point for emancipation from its dependency, but rather, seeks for the regime to be a spearhead in its struggle with the Ummah, and this is what is happening now. That is why it was necessary for the West to float this system so that it could play a greater role in serving America and its projects, especially that most important project that takes the Ummah far away from its crucial cause of establishing the Khilafah (Caliphate) on the method of the Prophethood, and which makes matters more difficult for it in the future if it tries to break away from subordination to the West. America is rushing to liquidate the Palestine issue and impose the two-state solution that protects and perpetuates the Jewish entity, makes its presence normal in the region, qualifies it for normalization with all regimes openly, and concludes trade exchange agreements that lead to its integration into the region. Perhaps the mutant entity will be crowned Secretary-General of the Arab and Islamic League, so the leadership of the entire region will be in the hands of the Jews! Which may relieve America as long as it holds the reins and the strings that move the Arab regimes through the Jewish entity, America's advanced military base in the heart of Muslim countries.

For this reason, it was not right for the West to leave the Egyptian regime reeling and face popular uprisings that might overthrow it and would inevitably have a serious impact on the Jewish entity, especially with what is happening to our people in Gaza and the realization of all people, including the people of Egypt, that the regime supports the Jewish entity and is an accomplice to it in its crimes, and it is the one who besieges the people of Gaza and prevents them from all their needs and does not enter it except with the permission of the Jews. It is as if floating the regime and saving it was a strategic goal for the West, which would not lose anything. It is sufficient for it to order the Arabs to pay and lend to the regime from the Ummah's money plundered in the colonial international institutions, thus giving the regime dollar liquidity

that gives it some time and obliges it to carry out the tasks assigned to it by its masters. It also requires it to implement economic policies that open wide the country to plunder his capitalist companies. This is why the recent decisions enable whoever he wants to own whatever he wants in the country, from companies to real estate and investments, as long as he pays in dollars, which makes the entire country for sale. It makes everyone who owns an inch of land where the people of Egypt live, threatened with displacement and expelled from it if one of the buyers desires it, and more dangerous than that to the people is the recent liberalization of the exchange rate, which we know was a necessary condition for the resumption of installments of the previous loan. Perhaps the regime's service to its masters made them raise the ceiling on this loan on the condition that the regime reduce the value of the pound, which it actually did. The pound officially lost approximately two-thirds of its value, including the actual confiscation of people's savings and wealth by losing their real purchasing value. All goods and services in Egypt are valued in dollars, as Egypt actually imports more than 90% of what it consumes.

O People of Kinana: Your only choice is to please Allah Almighty first, so hasten to Him, and know that provisions and deadlines are in the hands of Allah Almighty alone, and the wrongdoers do not diminish anything from them, and if they were able, they would do so! By Allah, if people had not had written provisions, they would have died of hunger under the disastrous policies of the regime, so trust in your Lord and be as He loves and is pleased with, striving to implement the applicable provisions of Islam, seeking His pleasure, the Almighty, and hoping for His Paradise. There is no desire for a world that will come to you wanting because it is from Allah's provision that He has provided for you.

O Loyal Soldiers in the Armed Forces of Kinana: You see what is befalling your people in terms of injustice, devastation, and the plundering of savings and wealth, and what is befalling them will harm you, and it is all due to one reason, which is the absence of Islam and its rulings, and the application of the laws of the West, which were created by humans and you are the ones who guard this system with its laws, tools, and enforcers, and the wrath of Allah Almighty upon them and upon you, so how will you meet Allah Almighty? In what way will you confront the Messenger of Allah (saw), O soldiers of the Kinanah?!

The regime takes refuge in you from the wrath of the people, and they are your families who spend on you from their children's provisions and place you above their heads, and they are the ones whom Allah has enjoined on you to protect, fulfill their ambitions, and restore to them their rights. Their greatest right is to be ruled again by Islam in its state, the Khilafah Rashidah (rightly guided caliphate), on the method of the Prophethood. So where do you stand regarding this right when you are the ones whose ancestors have always been a shield for this Ummah, protectors of it, its land, and its sanctities?! So where are you regarding the Blessed Land and the support of its oppressed people there?! Where are you in uprooting the monstrous Jewish entity that is usurping the land of Islam, violating its sanctity and desecrating its sanctities?! Who is for Islam if not you, and who will support it and put it into practice again other than you?! By Allah, you will be questioned before Allah if you do not do so, and the regime, its money, its ranks, its medals, and its privileges that it gives you to secure your side and ensure your loyalty will not benefit you. By Allah, it is bribery and illicit, so do not feed it and do not feed your children from it, and toss it away, and the regime that gives it to you. And cut the ropes between you and it and connect your ropes with those who want good for you and for you and who work with you to restore the usurped authority of the Ummah and establish an Islamic state that implements it at home and carries to the world a message of guidance and light. We ask Allah that you be its people and its soldiers, O Allah, Ameen.

﴿يَا أَيُّهَا الَّذِينَ آمَنُوا اسْتَجِيبُوا لِلَّهِ وَلِلرَّسُولِ إِذَا دَعَاكُمْ لِمَا يُحْيِيكُمْ﴾

“O believers! Respond to Allah and His Messenger when he calls you to that which gives you life.” [Al-Anfal 8:24]
