Fatwa Index Prepares the Atmosphere to Justify Corrupting Society by Corrupting our Women

And Continues to Slander Hizb ut Tahrir and Tries to Distort its Image

(Translated)

In a step of the religious revolution which was announced by the Egyptian president, the observers of the Global Fatwa Index of the Dar al-Ifta al Misriyyah (Egypt's Fatwa House) monitored the topics of "[Fatwas on Women](#)" and analyzed five thousand fatwas on women worldwide. They ranked Hizb ut Tahrir third after ISIS and al-Qaeda organizations in terms of issuing fatwas that it says they are abnormal. As if you, who oversee the Index, want to tell people that the Khilafah (Caliphate) that Hizb ut Tahrir demands is like the Caliphate of the so-called ISIS organization; it gives Fatwa and exploits women as sex machines, in an attempt to distort the image of the Hizb without careful consideration of its fatwas issued that express a deep understanding of Islam and keenness on the chastity and purity of Muslim women, the understanding that you are trying to evade. We have not seen you censure or monitor the legitimate infractions that are imposed on women under the secular capitalism that governs the country, nor the secularists' exploitation of her as a true sex machine, the source of distraction for peoples and promotion of goods.

O you who oversee the Index, Hizb ut Tahrir views women as wives, mothers and honors that must be protected and safeguarded and their protection is guaranteed by Shariah, which has defined their clothing, how to leave from their homes, and how to travel. As women are permitted to work, they are restricted to the legitimate work in terms of its type and whether it is permissible or not permissible for women. It also made it obligatory on her to adhere to the provisions of the Shariah in her clothing and when mixing with men while practicing her work. And what you have mentioned and what you have extracted from answers by the Ameer of Hizb ut Tahrir, the Eminent Scholar Ata Bin Khalil Abu Al-Rashtah, is disciplined in its context and does not deviate from the framework of Shariah, verified with evidences and addresses the issues of women in our time after your capitalism made her a commodity, and confronting you with that fact which you had mentioned "women in the democratic model is a commodity sold and bought in brothels, in companies and fashion houses, an oppressed woman, who is raped in the workplace, schools and universities and even by the closest relations". This is the woman in Egypt and this is her reality and this is what you should monitor and confront, not to make your main concern to search for the sincere ones and try to

undermine them and distort their image to alienate people from them to serve your masters and their masters in the White House!

But we tell you that you are falling and your situation is similar to the one who tries to extinguish the light from the sun by his mouth. The Ummah no longer trusts you, rather it discarded you and there is not much left until Allah makes His light prevail and gives victory to His soldiers, so beware to remain in what you are in, for Allah's punishment is severe and the Ummah will never forgive you for attempts to deceive it. So, repent to your Lord and salvage yourselves from your president and his religious revolution that sows obscenity and immorality in your country and among your women, and fights against your religion and every virtue it calls for. Your president will not benefit you and he will not spare you from Allah anything in the Hereafter, and he will not intercede for you when the second Khilafah Rashidah (rightly guided Caliphate) State on the method of the Prophethood is established soon with Allah's permission.

O People of the Kinanah! These are the ones who oversee the Fatwa Index, their index revolves around the agency to the West and follows the orders of its agents from the traitorous rulers, so do not listen to them and take your precaution, for what is plotted for your wives is dangerous. The West knows how precious, preserved and protected are the honours of our women. And after it destroyed our state and imposed on us its ruling system and its capitalist economy, and to ensure that we are prevented from restoring our Khilafah and our authority, it undertakes its constant attempts to corrupt our women. This requires removing the turban-dressers who sold their Deen for the Deen of their rulers, so do not listen to them, and listen to those who advise you in Allah and seek to maintain your honours and work with you until the establishment of the State which protects you by Islam and protects your women from the fierce attacks of the West and its agents, which aim to destroy your homes. O our Lord hasten for us this state and make Egypt the land of its victory, O Allah sooner rather than later.

“O you who have believed, respond to Allah and to the Messenger when he calls you to that which gives you life.” [Al-Anfal: 24]
