The Tyrant of ash-Sham has Fallen... Beware of the Corrupt Secularism Sought by America and its Followers

(Translated)

After 14 years of great sacrifices made by the people of Syria in their blessed revolution, where the Islamic Ummah was a party to the conflict with the forces of global colonial injustice and tyranny, starting with America, Russia and the Jewish entity, and passing through Iran and its party in Lebanon, and the collusion of the existing regimes in the Islamic countries, this revolution and its popular incubator overthrew the brutal and hateful Assad regime after 54 years of tyranny, killing and displacement, and joy spread among the people of Syria, and even all the Islamic countries, and healed the hearts of a people of believers, and the people of ash-Sham astonished as they liberated women, men and children from the brutal prisons.

The throats of the people of the ash-Sham did not stop chanting “Allahu Akbar” since the start of the revolution in 2011 until it entered Damascus, liberating it from the clutches of Assad and Baath rule. This popular incubator’s goal was to implement Islam, not just to overthrow the Assad regime and turn faces with faces, but in its sacrifices, demonstrations, and clashes with the forces of injustice and aggression and those who colluded with it, it was clear that it wanted a righteous Khilafah (Caliphate) that would implement the rulings of Islam in full, and expel from the Levant all those who conspired against it and against the Islamic Ummah. Its joy at victory will not be complete except by achieving this goal for which the revolution was launched.

This great achievement of the revolution should be a lesson for the Islamic Ummah, so that it does not feel despair of working for serious change to return its Islamic state to the path of the Prophethood, and should exert its most precious and valuable for that, and take it as a matter of life or death, as it has become certain of the collusion and failure of all Muslim rulers to support the people of Palestine, and their collusion in providing a legal cover for the crimes of the tyrant Bashar, when the Arab League decided to resume the participation of Syrian delegations in its meetings after an absence of 11 years, and to invite the criminal Assad to participate in the work of the Arab and “Islamic” summits, One of its strange ironies is that they did not listen to him when he spoke to them in his own words at the emergency Riyadh Summit for Gaza on 11/11/2024, and less than a month before his escape to Moscow, describing their meeting: "I hope that we succeed in making the right decisions, so that we won't be like those who speak to the thief in the language of the law, to the criminal in the language of morality, and to the butcher in the language of humanity, and so that good intentions will not be again a starting point and an incentive for more death.

But how can these rulers and their criminal aides in their security apparatus learn a lesson, while they are doing what they do, and they think that America, Russia and their security apparatuses have prevented them from taking Allah’s revenge?! Do they not see how quickly these Kufar (disbelieving) colonialists, enemies of Allah, abandon their humiliated agents and how they rush to throw them like dogs in the dustbin of history, when their interests require abandoning them?! Do they not learn and take heed from the rulers who came before them?! Or did you think that if you remained in your seats of power for a long time, you would be saved

from Allah's judgment, His tyranny and the revenge of your people? Perhaps you are the worthiest of being informed about how people took revenge on the legacy of the criminal Assad family, ﴿فَأَهْلَكْنَا أَشَدَّ مِنْهُمْ بَطْشًا وَمَضَىٰ مَثَلُ الْأَوَّلِينَ﴾ **“So We destroyed those who were far mightier than these ‘Meccans’. The examples of ‘their’ predecessors have ‘already’ been related.”** [Az-Zukhruf 43:8].

The real change that the people of ash-Sham seek is the change that eliminates the fallen regime with all its pillars of values, constitution and men, and that cuts off its relations with all the Western colonial powers, and does not seek to establish a secular civil state in order to gain the West's approval and silence its rule. It is the change by which the Islamic state is established and the Islamic system of government is placed in place of the secular system. This is the demand of the people of ash-Sham for which they revolted against the Assad regime, if the capable revolutionary forces were as they say they would be satisfied with what the people want.

So beware, beware of the revolution to be get involved in the vortex of transitional rule to prepare it for secular rule, or the euphemism for civil rule, which is adopted on behalf of America by Erdogan, Turkey, and the surrounding Arab regimes that work to establish the Jewish entity and remain silent about the brutality of some of them against their peoples. Let the people of the revolution in ash-Sham consider what happened to the revolutions that achieved half a victory, removing faces and replacing them with faces that kept their agents and secular constitutions, such as Egypt, Libya, Tunisia, and Yemen, which live in worse conditions than they were in, from being mortgaged to the Kafir colonizer and agent rulers, and the hardship of living and the empowerment of the Jewish entity, which is still continuing to exterminate the people of Gaza.

So to the group that has been burned by the injustice of the fallen regime and the regimes that are in its brutality, and who are aware of the tricks of America and behind it its followers in Turkey and other rulers of submission and dependence, to work to overthrow the secular political solutions that are being promoted with honeyed, flowery phrases such as civil rule that is no different from the ruling systems in place in Muslim countries, and to cling to what they revolted for, which is the state of the Khilafah Rashidah (rightly guided Caliphate) on the method of the Prophethood, and to support those who work for it, for it is what the peoples of the entire Islamic Ummah yearn for.

﴿الَّذِينَ إِن مَّكَّنَّاهُمْ فِي الْأَرْضِ أَقَامُوا الصَّلَاةَ وَآتَوُا الزَّكَاةَ وَأَمَرُوا بِالْمَعْرُوفِ وَنَهَوْا عَنِ الْمُنْكَرِ وَلِلَّهِ عَاقِبَةُ الْأُمُورِ﴾

“They are” those who, if established in the land by Us, would perform prayer, pay alms-tax, encourage what is good, and forbid what is evil. And with Allah rests the outcome of all affairs.” [Al-Hajj 22:41]
