## **Jordanian Regime prevents Hizb ut Tahrir Rally in its insistence to Abandon the People of Halab (Aleppo)**

(Translated)

In their insistence to abandon providing support to Halab and Ash-Shaam in general, and in its insistence to silence the mouths, suppress the people, aggress against their Shar'iyah rights and repress them, the Jordanian regime prevented Hizb ut Tahrir and those who responded to their invitation, from carrying out the rally that the Hizb had called for in the open area opposite of the Works Department in Tabrabour under the title: *The light of Allah will never be extinguished*. That happened as a result of an order issued by the capital of Amman Governor Khalid Abu Zaid to prevent the rally which then resulted in the surroundings of the open area and Works Dept being transformed into a military barracks for the various regime's security personnel including the internal intelligence, preventative security, police forces and public security personnel. They prevented the people and the Shabab of the Hizb from entering the open space of the rally or to congregate in its surroundings whilst threatening the people with arrest if they insisted upon remaining in the place! Additionally, they confiscated the personal identity card of one of the journalists after he refused to hand over his personal camera and that was after he conducted an interview with the Head of the Media Office of Hizb ut Tahrir in Wilayah Jordan and after taking pictures of the Head of the Media Office when he was speaking to the security and the officer in charge.

The governor seeks to display the courage of a lion in respect to a rally that was organised in support of Allah's cause, His Deen, the Ummah of Islam and the pure blood that is being shed upon the ground of Aleppo. He seeks to display courage issuing an order of prevention after having given permission to those behind the shameless Layla project for them to undertake their brazen, lewd and indecent activities whilst lowering to them the act of humility and graciousness, making himself small and lowly through his letter number S/2/Public/627 with his signature on 28/04/2016. Thus, reaffirming his role that has been given to him by the regime to spread and propagate indecency and immorality whilst preventing virtuous acts and honourable and dignified stances.
