In response to the call of Hizb ut Tahrir / Wilayah Lebanon, hundreds of activists and residents of Tripoli and its suburbs participated in a walking march titled: "Gaza's Blood is Our Blood, O Armies of the Ummah." The march set off after the afternoon prayers of Friday, April 11, 2025, from the Grand Mansouri Mosque, where it marched the streets of Tripoli. Islamic flags were raised, along with banners calling for the support of the Muslim armies. Participants chanted slogans calling for the overthrow of the oppressors besieging Gaza and supporting the Jewish entity.

The march concluded with a stand in Al-Nour Square, where Sheikh Ahmed Al-Sufi, Member of Hizb ut Tahrir / Wilayah Lebanon, delivered a speech in which he emphasized the primary responsibility of Muslim rulers for the bloodshed in Gaza. He emphasized that their treachery and subservience have become clear, and that their support is hopeless. He then called on the leaders of the Muslim armies, who possess weapons and men, to support the Ummah like those who supported it among the early Companions, such as Umar ibn al-Khattab, Sa'd ibn Mu'adh, and As'ad ibn Zararah, may Allah be pleased with them. He also mentioned Egyptian officer Khaled al-Islambouli, Muhammad Salah, Tantash al-Turki, and other heroes of the Muslim armies. He emphasized that the issue of Palestine can only be resolved through jihad, not through negotiations or normalization, and that the demise of the Jewish entity is a divine promise whose fulfillment is near, Allah willing.

The stand ended with a prayer for the people of Gaza and the entire Islamic Ummah.
