

### Media Statement

## **Visits by the Central Communications Committee of Hizb ut Tahrir / Wilayah Lebanon to Members of Parliament**

(Translated)

A delegation from the Central Communications Committee of Hizb ut Tahrir / Wilayah Lebanon, composed of Dr. Muhammad Jaber and Engineer Saleh Salam, as part of its campaign to visit members of parliament, visited MP Dr. Imad Al-Hout in Beirut for approximately one hour. During the visit, the delegation emphasized the following matters, which require positions and actions from the MPs in the Lebanese parliament:

1. The necessity of confronting the project of officially recognizing the Jewish entity, which preparations for are accelerating among politicians and the media under the pretext of American pressures demanding normalization.
2. That the armies must fulfill their Shariah duty by using weapons against the enemy of the Ummah, the Jews; and that the commanders of these armies must know that if they do not do so, their weapons will either be withdrawn from them or destroyed, in collusion with their ruling regimes that are tied to the West and that protect the entity.
3. Everyone must steer clear of the sectarian sedition (fitna) and anything that fuels or ignites it among Muslims, because this only serves the enemy and divides Muslims who should be united under one state, the Khilafah (Caliphate) State, despite their jurisprudential differences and political ijtihad.
4. The necessity of openly proclaiming the comprehensive Islamic State project which we carry, namely the project of the Khilafah, with all people, in parliament, in every political meeting, and on all occasions, and with both Muslims and non-Muslims, just as Hizb ut Tahrir does without any hesitation, but rather with joy and delight, being certain that it is the only salvation for us and for others from this difficult situation.

At the conclusion of the visit, it was agreed to maintain continuous communication for what is good for the Ummah.

The same delegation also visited last week MP Nabil Badr in Beirut to discuss the same matters, to place the MPs of the Lebanese people before their responsibilities, especially in proposing the radical solution and in holding the rulers accountable.

The Central Communications Committee of Hizb ut Tahrir / Wilayah Lebanon will continue its contacts with the MPs to present its solution project in the coming days, InshaAllah Suhanah w Ta'ala
