## **America is Your Open Enemy. Attempts to Appease It Are Futile. Only by Establishing the Khilafah Rashidah, Can You Neutralize America's Strategic Advantage and Give It a Befitting Reply!**

On 21 December, 2024, Pakistan's Foreign Office "strongly rejected the United States' criticism of Pakistan's long-range ballistic missile programme, calling it irrational and devoid of historical context as it vowed to continue developing its missile capabilities in line with its credible minimum deterrence strategy, emphasising their necessity in the face of evolving threats from India." (Source: Dawn). On 18 December, the United States imposed sanctions on four Pakistani entities, including the Pakistani government-owned missile manufacturer. This is the fourth time since October that the United States has imposed sanctions on entities linked to the Pakistani missile program. These sanctions are despite the fact that, according to the spokesperson of the Foreign Office, "Since 2012 when the US officials started broaching the subject, different Pakistani governments, leadership and officials, have endeavoured from time to time, to positively address and remove the misplaced US concerns." This is despite the fact that America itself is actively participating in arming the Hindu State with all kinds of weapons, so that it can become the regional policeman, and heat up fronts against the rest of the lands of Muslims!

Pakistan's political and military leadership has no confusion that these American efforts are to roll back Pakistan's nuclear and missile programs. Yet, the agent leadership is still constantly engaged in futile attempts to appease Washington. Didn't America eliminate Iraq's Scud missiles and chemical weapons before completely destroying Iraq? Didn't America allow the Jewish entity to target Syria's chemical weapons, warplanes and missile depots, lest they fall into the hands of sincere revolutionaries? Hasn't America made 'contingency plans' for Pakistan's nuclear and other strategic weapons? When America is using various military, diplomatic, economic and cultural tactics to eliminate Muslim powers one after another, then why is the Pakistani leadership maintaining strategic cooperation with the enemy America!

Through its world order, America gives the agent rulers the excuse of being "forced to follow" America. This is so that they can prolong their power, despite implementing harmful strategic programs. The reality of our leadership's "double game" is that this "double game" is being played against the sincere military officers and policymakers of Pakistan. The rulers use our military power against our own interests. The rulers broke our hands in Afghanistan under American dictation. They

are now fulfilling the American dictation of keeping the Taliban government in check. After putting Kashmir in the hands of Modi, the rulers gifted him a ceasefire on the Line of Control because of American dictation. Indeed, American dictation harms the Muslims all over the world. Under the same pretext of being “constrained by the world order,” Erdogan first watched the massacre of tens of thousands of Muslims in Gaza. Now, post-Bashar, Erdogan is erecting the architecture of a new American setup in Syria. Despite possessing the world’s most advanced technologies and powerful armies, under the current world order, the agent leaderships of the Muslims use them as mercenary forces for the United States. Does this not make it clear that Muslims now have no choice but to establish Khilafah Rashidah (rightly guided Caliphate).

The Khilafah Rashidah upon the method of the Prophethood will reverse the hegemonic order by eliminating the strategic advantage that the United States enjoys under the current American world order. The Khilafah Rashidah will overthrow the agent rulers of Muslims, whose thrones are already shaking under the wrath of the Ummah, in the shortest possible time. The Khilafah Rashidah will unify the lands of Muslims into one powerful state, which the kuffar will fear to even dream of fighting. The new world order of the Khilafah will reject the US dollar as the standard international currency and end the tyranny of the weakening dollar, causing the United States to suffer from the worst inflation and the worst economic crisis it has ever seen. The new world order of the Khilafah will end the US dominance over the world's sea routes and humiliate the US navy.

The establishment of the Khilafah will be the announcement of the end of the Jewish entity, which has never fought the army of a state under a sincere leadership. The armed forces of Muslims, unified under a Khaleefah will be able to wipe out this entity, when these Jews will become afraid of stones and trees. The US Deputy National Security Advisor is already announcing the possibility of Pakistani missiles reaching America. This is your real potential O people of power, which your agent leadership denies for you. So, O people of power! What is it that is preventing you from this path of honor, whilst Hizb ut Tahrir is calling you towards the great Sharia obligation? The Khilafah option is not a backup plan. It is the only Shariah method for the implementation of the commands of the Lord of the Universe. Allah (swt) said, ﴿هُوَ الَّذِي أَرْسَلَ رَسُولَهُ بِالْهُدَىٰ وَدِينِ الْحَقِّ لِيُظْهِرَهُ عَلَى الدِّينِ كُلِّهِ وَلَوْ كَرِهَ الْمُشْرِكُونَ﴾ **“It is He (swt), who has sent His Messenger (saw) with guidance and Deen of truth, that He may make it prevail over all other ideologies, even though the polytheists may be averse to it.”** [TMQ Surah As-Saff: 9]
