The Colonial States Fight the Idea of the Khilafah using all Means and Tools The Closure of Hizb ut Tahrir's Facebook Page is a Sample of its War (Translated)

Part of the colonial states' policy on the war on Islam and its people, and under the pretext of fighting terrorism in the media, politically and intellectually as well as its crusader military wars, these countries secretly and publicly push media institutions - even those that are supposed to be a substitute for the media such as social networking media - to crack down on the Hizb's publications, websites and accounts of its members on Facebook.

Facebook management has closed the Media Office of Hizb ut Tahrir in Palestine page on Facebook, after it closed the page of the Ameer of Hizb ut Tahrir, the honorable scholar Ata Bin Khalil Abu al-Rashtah and many of the party members' pages as well as members of the Media Offices earlier this month.

The Media Office of Hizb ut Tahrir in Palestine page is a political page. It is vibrant keeping pace with local, regional and international events from the viewpoint of Islam, and calls to restore the glory of the Ummah by establishing the second Righteous Khilafah on the method of Prophethood, which appears to have bothered the "private rooms" of the colonial states who dominate the media outlets and social sites.

This restriction and the closure of the Hizb pages, as well as the media's harassment, is an implementation of Obama's directives in which he called unto technology companies earlier this month to develop a "clearer understanding about when we see social media being used actively and practically for the promotion of terrorism", which is exactly what the former minister of the Jewish entity Tzipi Livni called for late last month, calling it: "the new era in facing terrorism", where she said in the context of an invitation to fight the "ideology of terrorism". Livni says, "We need to take this seriously. For Western ears it's like people are talking about creating a caliphate so it sounds unreal. They took us back to ideas that the world faced thousands of years ago but unfortunately now they have the Internet, they have social networks, they are working all over the place."

The colonial states base the implementation of their hellish policies on the absence of awareness among the people. Thus they are afraid of enlightened thoughts reaching the minds of people who quickly grasp and interact with them due to these thoughts sincere expressions of their way of life, which in turn thwarts the colonists schemes and increases the wrapping of the Ummah around the idea of the Khilafah and those working for it.

We hereby say to every person who assumes that he can mute the truth, that the sun does not extinguish by blowing on it, and Da'wah cannot be filtered, and that the Truth has appeared, and the voice of this Da'wah will reach the whole world, and Allah will allow all people to hear the voice of its carriers. We say to all forces of evil and tyranny that no matter how far your force and tyranny reach, it will not be able to prevent an idea whose time has come. Therefore what if this idea was the source of Revelation that is rooted in the earth and its branches reach the sky?!

﴿أَلَمْ تَرَ كَيْفَ ضَرَبَ اللَّهُ مَثَلًا كَلِمَةً طَيِّبَةً كَشَجَرَةٍ طَيِّبَةٍ أَصْلُهَا ثَابِتٌ وَفَرْعُهَا فِي السَّمَاءِ * تُؤْتِي أُكْلَهَا كُلَّ حِينٍ بِإِذْنِ رَبِّهَا وَيَضْرِبُ
اللَّهُ الْأَمْثَالَ لِلنَّاسِ لَعَلَّهُمْ يَتَذَكَّرُونَ﴾

"Have you not considered how Allah presents an example, [making] a good word like a good tree, whose root is firmly fixed and its branches [high] in the sky? It produces its fruit all the time, by permission of its Lord. And Allah presents examples for the people that perhaps they will be reminded." [TMQ Ibrahim 24-25]
