## The Government and Army Leaders Collude with the Rapid Support Forces in Killing People, Violating their Dignity, and Looting their Money

(Translated)

The news coming from Al-Jazeera; its presence, and its readers, make even the children turn grey with fear. No village has been spared, whether it is in the center, south, west, east, or north of Al-Jazeera, from the harm of the Rapid Support Forces (RSF), which have become like a plague, killing innocents, raping women, and looting the people's money and possessions. All of this has been happening since the fall of the capital of Jazeera State, Wad Madani, in a farcical play orchestrated by the Rapid Support Forces in December 2023.

It's no longer a secret to people that the government and army leaders are complicit in what's happening. Everyone is fully convinced that the RSF are not beyond the control of the army. They are not the invincible force that the army cannot eliminate. People see with their own eyes how the RSF roam freely in open land, without the government armies moving to confront them. They, the RSF, are reassured and they practice their brutality with ease, while people wonder where the thousands of youths mobilized by the state are, where the so-called popular resistance is, and where, where, where?!

What further confirms the complicity of the government and its leaders with the RSF against the people of Sudan is that the people in Jazeera requested the government to arm them for self-protection. However, the government did not respond to their request. It neither fulfils its legitimate duty to protect them nor arms them to defend themselves. Instead, it left them to the mercy of the RSF, allowing them to do to the people what the Tatars did to Muslims in the past!

A government that fails to fulfil even the minimum of its duties, such as providing security, is not worthy of remaining in power. Security, healthcare, education, and ensuring a decent standard of living in terms of food, clothing, and shelter are fundamental duties of the state. Yet, this government has failed in these basic responsibilities for nearly a year.

**O People of Sudan:** It has become clear that we need a Dawlah (state) that cares for our affairs, provides security, safety, and stability, not a State that colludes in killing us, raping our women, and looting our wealth as part of America's futile wars, where leaders of evil exchange roles!

The time has come to establish a State of truth and justice; the Khilafah Rashidah (rightly guided Caliphate) State on the method of the Prophethood, to uphold Sharia, establish security, and cut off the hand of America and other hostile countries against our Deen and greedy for our wealth.

﴿يَا أَيُّهَا الَّذِينَ آمَنُوا اسْتَجِيبُوا لِلَّهِ وَلِلرَّسُولِ إِذَا دَعَاكُمْ لِمَا يُحْيِيكُمْ﴾

“O you who have believed, respond to Allah and to the Messenger when he calls you to that which gives you life.” [Al-Anfal:24]
