The Female Guardians of Democracy Do Not Represent the Women of Sudan who Disbelieve in Democracy

(Translated)

On Wednesday, 15/5/2024, the American envoy to Sudan, Perriello, visited the headquarters of the Alharisat (Revolution's Female Guardians Organization) in Kampala, where he held consultations to learn about views on establishing peace in Sudan. He met with Sudanese female activists in Uganda and discussed with them efforts to end the war and the violations that affect women. He acknowledged the negligence of the international community regarding the humanitarian violations that affected them, and providing the affected women with the necessary assistance. He called for the importance of raising women's voices loudly to stop the war and achieve peace. He stressed that the energy displayed by Sudanese women in the glorious December Revolution remained an inspiration to him and to all those interested in Sudanese affairs, and women must continue to do so in the same approach to restore the democratic path.

We, in the Women's Section of Hizb ut Tahrir / Wilayah Sudan, regarding this suspicious meeting in which these deceived women cooperated with this envoy, Perriello, and his democracy which brought about all the suffering experienced by women, we clarify the following:

What women in Sudan are subjected to is only because of democracy, which, as soon as it lands in a country, it establishes in it a funeral house of mourning and wailing. In the first, second, and third democracy...etc., even if it reached a billion democracies, Sudanese women were the victims. Extreme poverty and famine are the fruits of the first democracy. As for the second, it increased with the ignition of tribal conflicts fueled by America and Europe, and then the final result was this absurd war that America ignited, to settle its scores with Europe, whose agents from the Forces of Freedom and Change came to power in a regime that was covered with the blood of those killed in the sit-in dispersal! What solution is the American envoy talking about, that will bring the cure when America is the one that brought the disease?!

As for acknowledging the negligence of the international community, it is only a word of truth with the intent to achieve falsehood. The negligence is intentional. The women of Sudan are not different from the women of Ash-Sham, Iraq and Afghanistan who came before them. Now the women of Gaza are standing tall despite their loss of men and children. To Allah we complain, not to those who design the suffering, then come and cry with crocodile tears that only fools such activists, whose minds have been polluted by the scourge of the times; Democracy, without understanding its meaning!

Instead of exposing the danger of America and its envoy, this organization held an exhibition in which they displayed stories of rape and suffering. This is what America and its envoy needs, because they are people who only live off the people's sufferings.

As for the false promises of aid and an end to the war, they are nothing but a bait for the female guardians of the so-called democratic values, that have been exposed.

It is the hour of truth now before the eyes of the whole world. America and its democratic values are the enemy of humanity. Let us reject all the values of the capitalist West as Muslim women, and hold on tightly to the values of mercy and peace, the pure and pristine values of Islam that will bring happiness to the suffering people on planet Earth, by striving seriously to restore the Islamic state; The Khilafah Rashidah (Rightly Guided Caliphate) on the method of the Prophethood, which will truly liberate us from the causes of wars and devastation left by capitalism.
