

Press Release

Were you incompetent, only to become a spoke in the wheel of the decadent Western values?

(Translated)

Amira Al-Fadil, Sudan's candidate, have won the post of Commissioner for Social Affairs of the African Union by majority, this was during the procedural session within the 28th African Summit events on Monday night. This confirmed that the success was the result of a great effort of many different parties. She expressed her hope that her success will be an opportunity for Sudan to play a role on the African Union level, and present the experience of Sudan in social affairs. The Minister of Foreign Affairs in a press statement congratulated the political leadership and the Sudanese people with this success!!

Is by Sudan reaching the post of Commissioner for Social Affairs of the African Union give Africa make the cure for its deepening social crises? Will it give it solutions to overcome its social catastrophes that wiped out the population, due to the rapid spread of HIV disease?

The answer to the AU website, dated January 26, 2017, which stated: "The meeting will host the International Centre for the education of girls and women in Africa, which is part of the African Union, the Embassy of the Kingdom of Norway in Ethiopia, UNESCO (IICBA), and UNICEF, Save the Children organization, and Plan international organization. The consultation aims to revive momentum on gender equality and women's rights in order to promote the internationally agreed development goals, and the goals of sustainable development, as well as a continental strategy for education in Africa 2016-2025 CE".

Therefore Sudan will help to introduce Western values: women's rights and gender equality to Africa, with the help of the plans of the Western Kaffir. While they are troubled with their failed values, The statistics and figures issued by the official centers in the West, confirmed that the idea of equality between the sexes destroyed marriages and the family including all its members, and corrupted the morals and encouraged departing from instincts, believing that the family, motherhood, and traditional marriage are reasons for the oppression of women and that they demolished the social and intellectual structure of society. Is that what we celebrate when we present it to people in Africa, and what we applaud by being at the center of leadership for the implementation of the Kaffir West plans on humanity?

A Muslim is not permitted to carry anything for himself or another person except the truth, which is the Deen of Allah - Islam, and the systems of life emanating from it.

Sudan could play an active role in carrying the guidance to Africa, by carrying the social system of Islam, the pure, following its true implementation by those in power, but as the saying goes, "The one who is deprived of something cannot offer it to others" and presenting the model of Islam to Africa will raise the status of those who work for it, but they cling to the ground, and follow their desires, and were incompetent, only to become a spoke in the wheel of corrupt Western values. They compete with others to implement these values and uphold its banner; they are values that do not contain the correct solutions. The true solution is in an ideological state, sincere in the implementation of Islam, it is the second righteous Khilafah State, on the Method of Prophethood, that will fill Africa and the corners of the planet with light and justice, having been filled with injustice and oppression.
