

Press Release

The End of Operation Euphrates Shield Ended with the Crime of handing over the city of Aleppo

(Translated)

“Did you see another Muslim country move to save 45,000 people from Aleppo other than Turkey?” Said Cavusoglu speaking out of empty heroism and deceptive victories. This came in a speech during his participation in a popular cultural forum in the state of Izmir in western Turkey.

These statements come days after the National Security Council announced the end of the Operation Euphrates Shield which did not achieve its declared goals with the start of its launch, but in fact it achieved one of the goals set by America. One of the undeclared goals was to hand over the city of Aleppo to the criminal regime in order to break the will of the revolution and to engage in America's project, which aims to eliminate the revolution and prevent the toppling of the tyrant puppet regime. Turkey carried out its drawn up plan, after it connected many factions to it, it summoned them to participate with it in this operation in the north, which weakened the Aleppo front.

O Muslims in Ash-Sham in the abode of Islam:

The role of the Turkish regime has become clear to every conceiver. All that it offered to the revolution was not out of a sense of responsibility and fulfilling the duty of supporting the Muslims in Ash-Sham, but it was a role dictated by the head of Kufr, America. It is executing every detail of it. The agents and puppets of America, each had its role in the war on the revolution of Ash-Sham; Russia and Iran and its party in Lebanon took the role of defending the regime of the tyrant, while on the other hand, Turkey, Saudi Arabia and Qatar claim their friendship for the revolution and support some of the revolutionaries in order to distract the compass of the revolution and lead it to its death by subjecting it to the American political solution. All of those who had a role in the war against the revolution of Ash-Sham: their role is complicit in the crime.

﴿سَيُصِيبُ الَّذِينَ أَجْرَمُوا صَغَارٌ عِنْدَ اللَّهِ وَعَذَابٌ شَدِيدٌ بِمَا كَانُوا يَمْكُرُونَ﴾

“There will afflict those who committed crimes debasement before Allah and severe punishment for what they used to conspire” [Al-An'am: 124].
