The Honorable Women of Tunisia Reject the Hell of Guardianship and Yearn for the Justice of Islam

(Translated)

Under this title, the Women's Section in Hizb ut Tahrir / Wilayah Tunisia launches a campaign highlighting the mysteries of programs of seemingly emerging issues such as the role of women in the new "geopolitics" of peace and their role in economic development and in combating "terrorism".

The campaign will continue for three weeks, culminating in significant and beneficial fieldwork:

Week 1: Highlight the economic reality of women and the falsity of the claim of economic empowerment.

Week 2: We will expose the Western agendas that essentially marginalize the role of women and undermine the foundations on which family relations are based.

Week 3: What women yearn for of justice and the system that embraces it and laid down for it.
