**We Condemn the Attack in Ankara and Declare once more that the Perpetrators are the Imperialists**

According to the Ankara Governorate's initial announcement, 27 people were killed and 75 wounded at the blast in Ankara's Kızılay district on Sunday March 13. This atrocious attack showed once more to everybody what terrorism is and what terrorists are, and revealed that terrorists are worthless monsters.

We as **Hizb ut Tahrir / Wilayah Turkey** condemn this dastardly attack that targeted civilians, and we ask Allah Azza wa Jal to grant His Mercy to the Muslims who lost their lives, *sabr jameel* – the tranquil patience- for their families, and swift recovery for the wounded.

Without doubt it is the Western imperialist nations who were behind this attack, just like at the other prior bomb attacks too. Because generating chaos and taking advantage of the chaos, supporting terrorists and utilising them for their own purposes, killing innocent people and afterwards shamelessly stating condemning messages, is what they are best at. Then one must be vigilant against these terrorist nations like America, England, Russia, France, and the Jewish entity must never trust their deceitful friendship. Their embassies should be closed at once and all relations should be suspended. Failing this the bloodshed will not stop, nor will terrorism end. Because the only things the Imperialists care about are their own lives and their endless self-interest. Based upon this, it is rather meaningful that the **US Embassy warned its own citizens of a bombing attack in Ankara only two days before the attack!**

As usual statements by authorities after the attack expressed that the pawns and the powers behind them are well-known and that the struggle will continue unwaveringly. It is not important who the pawns are, or who the subcontractors are. What is important is to expose the true perpetrators. If it is known who is meant by the term "Superior Mind", and if the powers behind the pawns are known, then this pained and bleeding people must know this. And if there is a fear of announcing the true perpetrators and instigators despite knowing them, then how will they be brought to account?! How will they be made pay for these massacres?!

The way of being a great nation, a strong nation and possessing strategic depth is obvious. Our past, our culture, and our history is obvious. Our friends and enemies are obvious too. So then, we should break off all relations with the West and return to our essence which is Islam. We must believe that our salvation is only in Islam, must trust in our Lord and stay by the Muslims. But not by the Muslims who think like Westerners! Not by the apostles of Democracy! Not by those who have designated Washington to their Qibla and those who look for power in the ranks of the imperialists!

Lastly; we condemn this treacherous attack again, and we say to all leaders, if you help Allah's Deen, Allah will help you in return. The Lord of the Worlds will not leave those who help His Deen in the lurch! But if you help America, it will let you down, for if America finds someone more loyal and more pragmatic than you, it will leave you instantly. It will crumple you up and dump away after using you, and it will not show you any loyalty for what you did. When that happens you will have lost your Dunyah, your Akhira and your honour. So see the gravity of the situation before it is too late and work for the establishment of the Khilafah Rashidah (Caliphate) upon the method of the Prophethood that will save you and all of the Muslims.
