

Press Release

Chaos and Assassinations in Aden

Will Never End until the Anglo-American Struggle Comes to an End in Yemen

(Translated)

The city of Aden is experiencing in one place or another explosions and assassinations; sometimes in the name of Al-Qaeda, at others in the name of ISIS whilst at other times still it is in the name of active separatist cells who are accused of being subservient to Iran. The one who scrutinizes the events and follows them in a sincere, aware and investigative manner, in respect to the colonialization and the states that are struggling over the Muslim lands, will see that that the explosions, chaos and assassinations fit into the colonial schemes under the shade of the Anglo-American struggle over Yemen and particularly over the Yemeni city that holds a strategic position. Every party from amongst the parties involved in the struggle plots to wipe out its opponent utilising local tools that have sold themselves to the foreigner becoming a card to be utilised in the service of their schemes. So for instance, Ali Saleh who manipulates the Al-Qaeda or ISIS card strives for that which serves the English and particularly in Aden where the raising voices of the southern movement which are loyal to America are causing worry to the old colonial power, Britain. This is what makes it wipe out its leaderships via its agents, whether this is the wing of Ali Saleh or the wing of Abd Rabbuh Mansur Hadi. Hadi has appointed leaderships of the southern movement to administer the governorate of Aden to please America and to incline the people of the South to hold those that he appointed responsible for the failure. This is so that they view them as being incapable or incompetent of administering the city and following that, how would the administration of the South of Yemen be of those movements that seek to separate the South from the North?!! Therefore these leaderships do not last long until they are exposed to eliminations, explosions and assassinations which are being managed by Ali Saleh utilising the 'terrorism' card.

Hadi has stated that he will take Aden as the temporary capitol for his government however he remained there for some months and then returned back to Riyadh out of fear that America, via the southern separatist movement that is loyal to it, will eliminate him and his government members. His government was unable to set a firm foothold in Aden that has become a stage for chaos, explosions and assassinations under the shade of the barbaric international struggle. And now you have the government of Hadi changing its viewpoint to go on to state that it will take the city of Al-Makla as its headquarters and base.

The city of Al-Makla had been under the control of Al-Qaeda for nearly a year and then within two days Hadi's forces gained control over it, forces supported by the countries of the international alliance, most significantly by the UAE which is linked to Ali Saleh, the one behind the agent Al-Qaeda card himself. This is because all of them are following America which is indicated by the understandings between its agents for the purpose of breaking the

backbone of the American agents, whether these are the movements calling for the separation of the south from the north or the Houthis in the north.

As for the city of Abyan that Al-Qaeda is in control of, then they have announced that they are prepared to withdraw from it upon the condition that it is handed over to its people, that the individuals of the militia group are not pursued and that the Houthi militias are not empowered there. This is so that this also fits in to the plans of understandings and handing over taking place amongst and between the British agents and which confirms that Al-Qaeda in Yemen is no more than a card from amongst the cards of the English agents, at the head of which is Ali Saleh and Ali Mohsen who is currently assuming the position of Hadi's deputy and it confirms their task in respect to guarding these cities, albeit for a short-time before they disappear?!!

Within this context, we should be aware of the Houthis describing the operation to liberate Al-Makla as representing a breach of the truce!! And particularly because the UAE, which serves the English, embarked upon and supported that operation.

O, our people in Yemen in general and in the South in particular!

The struggle that you are being burned by its fire is an international struggle over influence and resources. It is not a sectarian, Madh'habi (school of thought) or regional struggle as it is being portrayed to you by the parties involved in the struggle. That is to deceive you, mislead you and burn you, so that you kill one another and then when they agree to share and divide the cake all that they have been claiming will dissolve.

Our People in Yemen, in its south and north!

The solution will never be found by inclining to the agents and their treacherous self-serving plans and objectives, whether these are for separatism or federalism. Similarly, the solution will never come from dialogues and talks overlooked and supervised by the UN which has become a very distinct American institution. Rather, the origin in respect to your solutions is that they come from Islam and its treatments. Therefore, place it in the position of application and implementation; and beware and think about the consequences of reactionary actions without an awareness that holds a deep concern for the land and the people, because such consequences are catastrophic. You must think at a level of responsibility that is pleasing to your Lord, safeguards the land, infuriates your enemies and realises for you, happiness in this life and in your hereafter.

And here is Hizb ut Tahrir calling you to respond to the call of your Lord upon the tongue of your Messenger (saw): «دعوا فانها منتنة» **“Leave it because it is putrid”**. And it calls you to work for the ruling of Islam and the establishment of its rightly guided Khilafah state upon the methodology of the Prophethood, because it is a protection and shield for you and all of the Muslims.
